MINUTES OF MEETING DUNES COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Dunes Community Development District was held Friday, December 13, 2019 at 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road, Palm Coast, Florida.

Present and constituting a quorum were:

John G. Leckie, Jr.ChairmanGary CrahanVice ChairmanGeorge DeGovanniAssistant SecretaryCharles SwinburnAssistant Secretary

Dennis Vohs Treasurer

Also present were:

Greg Peugh

Jim Perry

District Manager

District Representative

Michael Chiumento District Counsel
Dave Ponitz District Engineer

Daniel Baker Hammock Beach Resort

The following is a summary of the discussions and actions taken at the December 13, 2019 meeting. A copy of the proceedings can be obtained by contacting the District Representative.

FIRST ORDER OF BUSINESS Roll Call

Mr. Leckie called the meeting to order at 9:30 a.m.

SECOND ORDER OF BUSINESS Approval of Minutes

A. November 8, 2019 Meeting

On MOTION by Mr. Swinburn seconded by Mr. Crahan with all in favor the minutes of the November 8, 2019 meeting were approved.

THIRD ORDER OF BUSINESS Audience Comments

Audience comments were made during discussion of the Ocean Hammock golf course easement agreement.

FOURTH ORDER OF BUSINESS Reports and Discussion Items

Discussion on Capacity Fee Issues for Commercial Accounts

Mr. Peugh stated as you know, we sent letters to some commercial account holders on November 1st. Hammock Beach is well under their numbers and are down from the previous month. We've met with all of the account holders that we sent letters to or they've called and talked to us, so we're moving forward on all of them. We had a long meeting with Cinnamon Beach because they wanted to do a few things. We audit the single-family homes quarterly. We took the 275 units and we split that per the DEP application, and we'd like to continue that process of using the DEP application for the basis in the future. The Amenity Center allocation of a 50/50 split was arbitrary, and we discussed with them that if the Board agreed that allocation could be changed to a different split due to the water uses at the amenity centers not being equal. We'd like to continue to talk to them and help them as much as possible with the allocation.

Mr. Ponitz stated the first group of commercial accounts have all responded to us with some repair notices and copies of associated repair invoices and asked us to make further considerations, if warranted. Greg met with the county on their couple of facilities, so we have a couple of notes there to be determined based on future land acquisitions and negotiations. This is related to the traffic light land and the future well site.

Mr. Peugh stated the one issue that's outstanding is the Hammock Dunes maintenance facility. We think it was built in 1984 or 1985. Our first water purchase was in 1988 so if there was additional capacity it would have been paid to Palm Coast Utility Corporation at that point, however there is no documentation. They do think they have a leak and they're going to fix that, and we will see what their consumption is and go from there.

The following item was moved up to accommodate guest Daniel Baker.

D. Consideration of Ocean Hammock Golf Course Easement Agreement

Mr. Chiumento stated this agreement is the belt and suspenders for your purchaser. There is an existing agreement between both parties but it's more of a covenant and restriction and they requested an easement that memorialized the intent of how we've been operating for the last 20 years. It hasn't given them anything more or less. Essentially, when they platted the golf course, they dedicated lakes to us.

2

Mr. Baker stated there was a true-up but not an absolute survey so the nuance is that we have greens and tees that may be right on the edge of the lake bank that may technically be part of the lake bank. Our purchaser said the agreement is not explicit to say that these golf features can be allowed within this area, so they asked us to get clarification.

Mr. Chiumento stated it has in there if they want to change, add or remove, the parties have to work together, and we can't unreasonably withhold our consent to their additions or changes. We have our sovereign immunity.

Mr. Peugh stated I don't see any problem with it. It's the way we've been operating forever.

Mr. Ponitz stated I think it preserves our St. Johns River Water Management District requirements as well.

Mr. DeGovanni suggested that the abbreviation, MSSW system, be defined within the document.

On MOTION by Mr. Swinburn seconded by Mr. Vohs with all in favor the Ocean Hammock golf course easement agreement was approved.

Discuss Weir Structures / MalaCompra Drainage

Mr. Peugh stated there's no update on the MalaCompra Drainage. We're still going back and forth with ETM at this moment. We're also working with Palm Coast to model that reuse line.

Renaissance / Beach Walk Development Update

Mr. Peugh stated Michael is reviewing a letter for Renaissance. We're going to send them a bill because we cannot find where we've billed them in the past for the availability fees for water, sewer and reclaimed since 2005.

We have a few drawings for the extension of Beach Walk's pump station. They will be served by Palm Coast, but Palm Coast is not going to accept the pump station because they told the developer they shouldn't have a pump station in the backyard of two homes due to the likelihood of odor complaints.

B. Discussion on Restriping Estimate

Mr. Peugh stated Mr. DeGovanni had asked about restriping Hammock Dunes Parkway and the connector road. It's about \$108,000 for Thermoplastic and about \$50,000 for painting. Our consultant, Kissinger Campo, is supposed to drive it again before the end of the month. Right now, we've scheduled the milling of the parkway for 2023. I don't think it's going to last that long so if he can give me a better timeframe on that and it's going to be in a year, I would say we shouldn't paint it now. If it's going to be three years, then that's a discussion we need to have. We will have that information next month.

C. Consideration of Stormwater Utility Engineering Services Contract

Mr. Peugh stated we selected CDM Smith and this is the scope of work from them. This will help us put together a CIP in the long run so we can figure out where our assets are for the stormwater system. It would be the start of a funding mechanism dedicated to fixing the stormwater pipes. We budgeted \$250,000 for this work and this contract is for \$239,500. I'd like to put it in place so we can go forward and start the process. We need to start a cleaning plan because those stormwater pipes are starting to plug up and this will help with that.

Mr. Crahan requested that CDM focus on a small area first prior to the District committing to inventory of the entire system.

On MOTION by Mr. Crahan seconded by Mr. DeGovanni with all in favor the scope of work with CDM Smith for stormwater utility engineering services was approved.

FIFTH ORDER OF BUSINESS

Staff Reports

Attorney

There being none, the next item followed.

E. Engineer - Report

Mr. Ponitz gave an overview of the engineer's report, a copy of which was included in the agenda package.

Manager

F. Bridge Report for November

Mr. Peugh stated vehicle traffic was up about 5% and revenue was down about 0.25%. We have 19,200 total accounts with 4,800 people using the website and we've sold 6,100 loyalty cards.

G. Additional Budget Items Report

Mr. Peugh stated I have \$26,056.87 for Besch & Smith to do the civil repairs, for COMANCO to do the liner repairs, for the fish clean up and we also rented plugs because we couldn't get the valves to shut. Usually I would tell you beforehand if I had to spend this money, but in this case, I didn't have a choice.

On MOTION by Mr. Vohs seconded by Mr. Swinburn with all in favor the expenses related to the civil and liner repairs in the amount of \$26,056.87 were approved.

Miscellaneous Items

Mr. Peugh stated we pushed back the bid for the toll plaza to January 10th. I hoped to have an amount today but we're having problems getting bidders. I've reached out to some folks so this will hopefully give them some more time and we will hopefully get some more bids.

I went to the county workshop and special meeting on Monday and they authorized the \$250,000 to start the engineering and planning process for the dunes restoration. This will also make the dunes eligible for federal funding.

The two things that are outstanding from the \$1.8 million that you all set aside when we did the negotiations for the interlocal agreement are the MalaCompra drainage improvements for \$900,000 and the repairs to the dunes at 16th, Jungle Hut and MalaCompra for \$400,000. On Monday I assume the county is going to approve those invoices and they're going to send them to us for payment. Mr. Crahan requested we not pay more than we agreed to. Mr. Peugh stated he would provide an accounting of what we have paid and with the new invoices.

We fixed several sections of concrete on the path next to Hammock Dunes Parkway. If you all are every walking the Parkway and see anything, let me know and we will get it fixed immediately. Mr. Crahan provided some suggestions from a resident on the landscaping along the Parkway. Mr. Peugh stated that I'll contact her and discuss it with her.

SIXTH ORDER OF BUSINESS

Supervisors' Requests and Audience Comments

There being none, the next item followed.

SEVENTH ORDER OF BUSINESS Financial Reports

- H. Balance Sheet & Income Statement
- I. Community Projects Schedule
- J. Assessment Receipts Schedule
- K. Approval of Check Register

On MOTION by Mr. Vohs seconded by Mr. Crahan with all in favor the check register was approved.

EIGHTH ORDER OF BUSINESS

Next Meeting Scheduled for Friday, January

10, 2020 @ 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road,

Palm Coast, Florida

NINTH ORDER OF BUSINESS Adjournment

On MOTION by Mr. Swinburn seconded by Mr. Crahan with all in favor the meeting was adjourned.

Secretary/Assistant Secretary Chairman/Vice Chairman

• IV. Engineer

WWTP Expansion Project:

Bids were opened September 28, 2017. The four bids received ranged from a high of \$9.5M to a low of \$8M. Value Engineering reduced price by \$1,645,300, revised project value \$6,351,600. Contract and Change Order #1 Executed and Contract Documents provided to Contractor, Petticoat-Schmitt. Permit modification received from FDEP. A notice to proceed (NTP) was issued April 16, 2018 Time of substantial completion is 455 days from NTP (7/15/19). County permit has been issued. Substantial completion date for the project is established as September 13, 2019 with final completion scheduled for October 13, 2019. Engineer of Record (CPH) submitted FDEP Notification of Completion of Construction Form to the Department on October 30, 2019. Contractor's current activities and status is described as follows. The last progress meeting was held on Tuesday, October 8. All significant project activities are completed. Revere (SCADA) technicians continue to trouble shoot and integrate a couple of remaining operational and instrumentation configurations for the District's SCADA platform. All operator equipment training has been completed except for equalization pumps (WEMCO - TSC Jacobs North) and SCADA (Revere) instrumentation items. All final O & M manuals, spare parts and equipment warranties have been received, reviewed, approved and provided to the District. Staff awaiting completion of training, scheduled for January 7 & 14, and a few remaining punch list items from Revere (SCADA Integrator). Contractor's Final Reconciliation and Payment (20) Request is being reviewed. Awaiting schedule for installation of SBR Blower returned and repaired per warranty.

Irrigation Storage/Usage

Design Project to pump storm water from the Hammock Dunes lake system is on hold. We maintain a portable diesel powered pump we can quickly begin pumping from the storm water system should the need arise.

A routing study by the City of Palm Coast's consulting engineer for a new reuse water main that would increase the amount of reuse water DCDD could obtain has been narrowed to three (3) routes. City is concentrating its efforts on getting the new wastewater treatment plant #2 online and will re-focus on the reuse water main upgrade after the plant is up and running. Board authorized ETM Consultant Scope of Services to perform an Irrigation Sourcing Master Plan to evaluate future build-out irrigation demands and to illustrate and quantify all available water sources, along with any capacity restraints, for meeting future needs. ETM provided draft technical review memorandum findings and discussed with staff during meeting held on April 18. ETM is awaiting DCDD staff review and response to additional demographic information concerning the service area and estimated in-fill growth rate prior to delivery of draft final report. No update to report.

Weir Structure

We received preliminary plans for weir gate next 7/24/17. Cost of gate is \$10K (not installed cost). Also have directed engineer to include weir structure design for the structure near Blue Heron Ln. Follow-up report indicated an estimated construction cost of \$25,000 to \$30,000 each Met with the engineer September 26, 2017 to go over report. Meeting held Oct. 20 with SJRWMD. DCDD needs to develop drainage plan showing downstream drainage impacts. Meeting held with County's stormwater consulting engineer (ETM) 12/7/17. Drainage study \$50K+ using model developed for Malacompra Drainage area. Meeting held with Flagler Co. January 26, 2018 to discuss their plans for drainage in the Marineland Acres area, maintenance planned for the Malacompra Ditch and tributaries and drawdown of the lakes in Hammock Dunes, Ocean Hammock and Hammock Beach through an adjustable weir or pumping or harvesting for reuse purposes. Staff issued PO to ETM (\$28K) for performance of a Stormwater Harvesting Evaluation - Phase 1, Preliminary Assessment. The Phase 1 assessment results were shared with the Board in a technical memorandum prepared by the consultant during the November meeting. Minimal flood control benefit was realized by the stormwater harvesting although a potential benefit is available as a reclaimed source of water for irrigation. Staff received guidance from Board to await findings from ETM's Irrigation Sourcing Master Plan evaluation prior to moving forward with the consultant's additional scope of services proposal related to a Feasibility Study for Hotel Trace Weir Removal/ Modification. No update to report.

Intersection Improvement Project

KCA provided a proposal regarding lane additions and/or signalization improvements for the intersection of Hammock Dunes Pkwv and Camino del Mar under their continuing services agreement to perform an intersection study that will identify the level of service and assess options available to the DCDD to improve the intersection. The fee proposal for the services described in the proposal is \$57,610 and PO was issued subsequent to staff presentation and discussion during September board meeting. Staff reviewed 2nd draft traffic technical memorandum/ report in early February that included results of the recent 24-hour traffic counts performed by KCA in early October along with future traffic projections and improvement considerations along with staff review comments. Staff received final report that includes considerations for evaluating future intersection needs based on appropriate annual traffic growth rate projections in May 2019. Staff issued purchase order to KCA (consultant) for professional engineering and surveying services proposal to perform concept roadway and drainage designs for proposed intersection improvements to determine proposed right of way limits for future project and land acquisition. The surveying activity related to this project has been completed and conceptual lane widening plans were received. Comments provided to consultant. Consultant also performed field visit to ground truth existing topographic features, infrastructure and landscaping items impacted by draft conceptual lane widening plan for further consideration and discussion.

Standby, Emergency Pumps

Recovery efforts following Hurricanes Mathew and Irma indicated a need for provision of additional emergency backup pumping equipment to maintain sewer service to our customers during extended power outage periods. Staff has identified existing wastewater pumping stations as the most critical and highest priority for provision of standby emergency pumping capability. The pumping systems selected and purchased separately by the District are diesel motor driven pumps manufactured by Godwin Pumps (supplied by Xylem) capable of pumping a large range of flow at varying head pressures and are provided with sound attenuating enclosures and critical grade silenced mufflers for noise purposes. This is a budgeted annual capital improvement item.

Priority 3 Facilities (2019-20): LS-10, 34 Island Estates and LS-16, Ocean Way N: Staff reviewed and authorized proposal from CPH Engineers for related survey and engineering design services in the amount of \$26.5K for placement and installation of standby pump piping and site improvements to include rehabilitation and upgrade for LS 10 mechanical and electrical components. Engineer performed site survey work for supporting design related services in mid-August. Staff prepared project notice to HD & OH Owner's Associations and OH Golf Course regarding consultant activities. Staff provided review comments on draft site plans for both stations and reviewed engineering calculations for LS-10 proposed pump upgrades. Staff issued purchase order for purchase of bypass pumps from Godwin/ Xylem based on Florida Sherriff's Association (FSA) bid pricing and proposal. Staff also provided recommendation for pump assembly selection and upgrade for LS 10 (34 Island Estates) facility. Staff met with pump manufacturer and control panel fabricators for assisting development of updated plans standard for future District lift station configurations. Awaiting delivery of bypass pumps (anticipated March 2020) and receipt of final plans and bid documents from consultant (January 2020).

FDEP – Water Treatment Plant RO Concentrate Disposal – Permit Renewal

Staff and Consultant (Mead & Hunt) prepared and submitted the Industrial Wastewater Discharge Permit Renewal Application in early July in accordance with current FDEP Permit No. FL0355259. This application is processed every five years and is due 6 months prior to the current expiration date of February 29, 2020. The District is required by FDEP to prepare and submit monthly discharge monitoring reports for the RO demineralized concentrate byproduct of the reverse osmosis process discharged to the ICWW along with semi-annual toxicity reports. Additional sampling and testing activities are required to be performed during the 5 year permit renewal application process to periodically monitor and review a broader range of potential pollutants of concern to insure no adverse changes in water quality is realized by our current source water conditions, treatment methods and treatment chemicals used.

The purpose of the report is to illustrate the DCDD is maintaining reasonable assurances that the permittee's disposal of demineralized concentrate from the

water treatment RO process continues to meet current regulatory permit conditions and is not adversely affecting nearby surface water quality standards. Staff is awaiting confirmation of permit renewal from the FDEP. Staff received FDEP Request for Additional Information (RAI) 1 dated August 7, 2019 with a couple of items listed requiring either additional clarification and/ or data source references. Staff and consultant prepared and submitted draft response to FDEP on September 26, 2019. Staff and consultant discussed the draft RAI 1 response with FDEP regulatory personnel and the official response to RAI 1 response was submitted on October 21, 2019. FDEP issued a copy of draft Permit on November 8, 2019. Staff and consultant reviewed draft permit and provided comments to the FDEP on November 14, 2019. FDEP issued Notice of Intent to issue permit on December 16. Notice of Intent was published in News Journal on December 20 with proof of publication received and forwarded to FDEP on December 30, 2019. Final permit to be issued upon successful completion of public notice period for comments.

WTP Generator Fuel Tank (4000 Gallons) Replacement Project

Staff issued purchase order to Power Secure Service, Inc. (PSSI) to fabricate and replace the existing fuel tank and to perform closure and removal services for the existing tank. The fee for the services described in the proposal is \$60,453 and PO was issued subsequent to staff presentation and discussion during August Board of Supervisors meeting. Payment for tank deposit was issued and vendor performed site measurements for tank manufacture purposes in mid-August. Estimated tank delivery is sixteen (16) weeks. Vendor indicates tank fabrication is tentatively scheduled for completion on or around October 18. Vendor is also preparing new tank registration and old tank closure documents for eventual review and execution by District for submittal to FDEP. Staff prepared and submitted necessary tank registration and certification of financial responsibility forms to FDEP to accommodate new tank installation. PSSI completed old tank removal and new tank installation on October 22 and 23. Staff coordinated fuel removal and replacement with Port Consolidated (DCDD fuel vendor). FDEP inspection for new tank installation and old tank removal and closure occurred on October 29, 2019. Staff received final paperwork from PSSI and FDEP to complete tank registration and closure activities in accordance with FDEP requirements. Tank registration forms updated and forwarded to FDEP. FDEP Tank Registration System updated to include new tank installation and old tank removal.

Tertiary Filter Replacement (Reclaimed Water Distribution System)

Operations staff received delivery of new disc filter system manufactured by the Miller Leaman Company located in in Daytona Beach on December 18. The new system upgrades the filter flow capacity of the existing system currently rated at 4,400 gallon per minute (gpm) to 6,600 gpm (3 each skids rated @ 2,200 gpm). The primary function of the system is to filter algae and other sediments that are contained in the District's reclaimed water storage pond system prior to entering the District's reclaimed water distribution system. The new system is designed to filter reclaimed water flow rates realized during high demand periods. The new filter

system also contains a master control scheme to insure only one (1) skid is backwashing at a time. McMahan Construction Company assisted the District with disconnection and removal of the existing system and installation of the new system. Staff is scheduled to receive equipment training in upcoming weeks. This project is contained in the District's 2020 Capital Improvement Projects Budget.
