MINUTES OF MEETING  
DUNES COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Dunes Community Development District was held Friday, February 14, 2020 at 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road, Palm Coast, Florida.

Present and constituting a quorum were:

John G. Leckie, Jr.	Chairman
Gary Crahan	Vice Chairman
George DeGovanni	Assistant Secretary
Charles Swinburn	Assistant Secretary
Dennis Vohs	Treasurer

Also present were:

Greg Peugh	District Manager
Jim Perry	District Representative
Michael Chiumento	District Counsel
Dave Ponitz	District Engineer

The following is a summary of the discussions and actions taken at the February 14, 2020 meeting. A copy of the proceedings can be obtained by contacting the District Representative.

**FIRST ORDER OF BUSINESS**

**Roll Call**

Mr. Leckie called the meeting to order at 9:30 a.m.

**SECOND ORDER OF BUSINESS**

**Approval of Minutes**

**A. January 10, 2020 Meeting**

Mr. Crahan provided corrections, which will be included in the final version.

On MOTION by Mr. Swinburn seconded by Mr. Crahan with all in favor the minutes of the January 10, 2020 meeting were approved.
---

**THIRD ORDER OF BUSINESS**

**Audience Comments**

There being none, the next item followed.

**FOURTH ORDER OF BUSINESS****Reports and Discussion Items****Discussion on Capacity Fee Issues for Commercial Accounts**

Mr. Peugh stated we are down to just a few commercial accounts. The Hammock Dunes maintenance facility has corrected some of the leaks so they're down to just a small leak and they're under one ERC from the latest data we have, so no money would exchange hands on that part. Cinnamon Beach has fixed several things and they're continuing to fix several things so they've asked to go through the peak season of this year and then we can see what they're actual usage is. Discovery Center fixed several leaks and have a couple more to fix. They admit their usage is probably going to be over. Hopefully by the end of this month they will have those leaks fixed and then we will monitor it and see how much they're using. The Ocean Hammock Property Owners Association amenity center has fixed the pool, and that appears to have fixed the problem. We will monitor that and make sure.

Mr. Crahan stated I would suggest we periodically check our website. After the last meeting I went on the website to see what my consumption was, and the site was down or had some kind of a coding problem.

**Discuss Stormwater Utility / Reclaimed Flow**

Mr. Peugh stated for the stormwater utility, we've scheduled a kick-off meeting for February 26<sup>th</sup> with CDM and we will start working on the project in earnest at that point.

We've talked to the City of Palm Coast regarding the reclaimed flows. There are a couple of valves that come from the line from their wastewater plant and as we've said before, we checked the ARVs and all of our valves and they're fine. There are two valves that discharge to the intercoastal and I still have not heard from them whether or not they've checked to see if they're closed, so we're waiting on that. We also scheduled a trip over to their wastewater treatment plant because they moved a pump and we want to see what they've done. We also have an FPL electric meter that we pay the minimum base charge for, but there's no usage, so we're going to figure out if they need it and if not, we will turn it over to them or cut it off.

**Renaissance / Beach Walk Development Update**

Mr. Peugh stated we met with the new developer of Renaissance and Charlie Faulkner. They're going to tweak the previous plan a little bit and are in their due diligence phase. I have not heard any more from them so as soon as they have something more, we will bring it to the Board.

Mr. DeGiovanni asked did you discuss with them the easement issue?

Mr. Peugh stated yes, we told them we need a 25-foot minimum easement for the stormwater pipe, and that seemed reasonable to the developer.

On that same property, Michael Chiumento's office has been going back and forth with them on the availability fee. We sent them a bill for \$81,000. They've offered us \$19,172.77 based on when they platted it to December 31<sup>st</sup>, 2019. There is an ongoing bill from January to February that they're going to have to pay too.

Mr. Swinburn motioned to accept the offer of \$19,172.77 from Dana Crosby Collier and Mr. Crahan seconded the motion.

Following a discussion on the offer presented, Mr. Swinburn withdrew the previous motion. Mr. Peugh was directed to provide the calculations of how the bills and offers were established as well as giving the calculation for the five year look back period as detailed in the Oare response letter.

Mr. Leckie stated in regard to Beach Walk, what about the situation with our line on their property?

Mr. Peugh stated I had our engineer, CPH, survey it and it is on their property.

Mr. Crahan suggested offering that the DCDD would move our sample point when Mr. Peugh discussed the issue with the Atlee Group

**B. Discussion on Restriping Estimate**

Mr. Peugh stated to re-stripe just the four-way stop, the cost would be \$1,500 and \$2,975 for paint versus thermoplastic. That's a lot less than our estimate, so I asked for a quote on all of Camino Del Mar and Hammock Dunes Parkway and the total price for painting was \$15,408 and

for thermoplastic was \$34,475. I asked our engineer and he said based on the fact that we intend to mill and resurface in 2023, he would paint it.

Following a discussion, the Board made the following motion to paint only the four-way stop.

On MOTION by Mr. Swinburn seconded by Mr. Vohs with all in favor restriping the four-way stop at Hammock Dunes Parkway and Camino Del Mar for a total of \$1,500 was approved.

#### **D. RO Membrane Replacement Engineering Services Proposal**

Mr. Peugh stated included in your agenda packet is a proposal by Mead & Hunt to replace membranes in trains one and two. The original ones were installed in 2007 and generally they'll last seven to ten years. They're also going to review our water quality and verify that we've selected the best solution. We have our preferences of what we like to maintain and operate, but we want them to give an independent opinion on if that's going to work and meet future rules. The cost of the engineering services is \$33,374.

On MOTION by Mr. Vohs seconded by Mr. Swinburn with all in favor the proposal from Mead & Hunt for RO membrane replacement engineering services for a total of \$33,374 was approved.

#### **C. Toll Facility Bid**

Mr. Peugh stated we only received one bid from Cline Construction. The base bid, which is removing the underground storage tank and generator and replacing with the new generator and belly tank is almost \$153,000. That's something we would want to do whether we do the rest of it or not. For the alternate bid, which is the parking lot, the interior renovation and all that is for \$1,042,000. It's significantly more than our total budget, which was \$700,000. We've asked them to value engineer it and see where the numbers will fall, so I can give you that number and then you can decide. Mr. Crahan asked what the building renovation would cost, and Mr. Peugh responded approximately \$516,000. After a discussion on the project, the Board directed Mr. Peugh to obtain a value engineering cost for the Toll Facility Bid.

#### **New Rules Discussion**

Mr. Peugh provided the Board a redline version of the Rules of Procedure and asked the Board to review chapter one and provide any feedback at the next meeting.

## **FIFTH ORDER OF BUSINESS**

### **Staff Reports**

#### **Attorney**

There being none, the next item followed.

#### **E. Engineer - Report**

A copy of the engineer's report was included in the agenda package.

#### **Manager**

##### **F. Bridge Report for January**

Mr. Peugh stated vehicle traffic was up a little over 7% and revenue was up about 0.64% from last year. Total accounts are at 19,074; 5,100 are using the website and we've sold 8,600 loyalty cards.

##### **Miscellaneous Items**

Mr. Peugh stated I spoke with Paul Pershes with the Ocean Hammock POA about buying the parcel that we may need for the four-way stop signalization. His proposal was if we would pay for approximately \$3,000 worth of landscaping near Hotel Trace, they would give us the property. I need to see the bill, but if the Board seems interested in that I'd like to move forward with it. Mr. Leckie directed, with the Board's consensus, that if the property can be obtained for \$5,000 or less that Mr. Peugh was to obtain the property.

Of the 2000 accounts, 446 are using the utility payment website.

A resident of the Hammock Community Association sent me an email with several questions that I answered regarding the traffic signal we're looking at installing at the four-way stop. I told her our interest in the signal is in safety and avoiding traffic issues there.

This morning, a resident from Island Estates came in and asked if we could put bike lanes from the four-way stop southbound up to the breakdown lane. It's something I think we should look at, so I can have our engineers see if they can put a bike path there or see what the best way is to approach that.

##### **G. Additional Budget Items Report**

Mr. Peugh stated I included re-striping of the whole Parkway in the additional budget items report, so I'll reduce that down to the \$1,500 we approved.

## **SIXTH ORDER OF BUSINESS**

### **Supervisors' Requests and Audience Comments**

Mr. DeGiovanni stated the clearing of brush and installation of pine straw on both sides of the road from the intersection down to Jungle Hut looks really sharp.

Mr. Crahan stated in the big sweep on the Parkway between Hotel Trace and the Discovery Center there has been an on-going fight within the HOA with regard to easy access from the Parkway into that neighborhood. They wanted somebody to put fencing along there and everybody decided a dense landscaped area was okay. Somebody had a break-in two years ago because somebody used an egressed area of grass to gain access to a house that was right there so before we go too far in removing landscaping, make sure we balance the beautification with the non-permeable landscape barrier.

Mr. Peugh stated we can add some spartina and I'll make sure the landscapers do not trim too much in that particular area.

Mr. Leckie noted he would not be running for reelection to the Board in November.

## **SEVENTH ORDER OF BUSINESS**

### **Financial Reports**

- H. Balance Sheet & Income Statement**
- I. Assessment Receipts Schedule**
- J. Community Projects Schedule**
- K. Approval of Check Register**

On MOTION by Mr. DeGiovanni seconded by Mr. Crahan with all in favor the check register was approved.

## **EIGHTH ORDER OF BUSINESS**

**Next Meeting Scheduled for Friday, March 13, 2020 @ 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road, Palm Coast, Florida**

**NINTH ORDER OF BUSINESS**

**Adjournment**

On MOTION by Mr. Crahan seconded by Mr. DeGovanni with all in favor the meeting was adjourned.

- IV. Engineer

**WWTP Expansion Project:**

Bids were opened September 28, 2017. The four bids received ranged from a high of \$9.5M to a low of \$8M. Value Engineering reduced price by \$1,645,300, revised project value \$6,351,600. Contract and Change Order #1 Executed and Contract Documents provided to Contractor, Petticoat-Schmitt. Permit modification received from FDEP. A notice to proceed (NTP) was issued April 16, 2018 Time of substantial completion is 455 days from NTP (7/15/19). County permit has been issued. Substantial completion date for the project is established as September 13, 2019 with final completion scheduled for October 13, 2019. Engineer of Record (CPH) submitted FDEP Notification of Completion of Construction Form to the Department on October 30, 2019. Contractor's current activities and status is described as follows. The last progress meeting was held on Tuesday, October 8. All significant project activities are completed. All operator equipment training has been completed including SCADA (Revere) instrumentation items. All final O & M manuals, spare parts and equipment warranties have been received, reviewed, approved and provided to the District. Contractor's Final Reconciliation and Payment (20) Request has been paid. Warranty Assistance Requests are being logged and forwarded to Contractor and Engineer for administering miscellaneous warranty needs and status of repairs. Staff reviewed draft record drawings and provided comments to Engineer – awaiting receipt of final project record drawings. Engineer of Record (CPH) submitted FDEP Notification of Availability of Record Drawings and Final O&M Manuals to the Department on February 17, 2020. Email correspondence was received confirming FDEP was clearing the 0.21 MGD expansion project for service (overall plant capacity @ 0.71 MGD.)

**Hammock Dunes Marshes**

Staff awaiting SJRWMD findings for additional Hammock Dunes marsh considerations and methodology for quantifying marsh ecologic values/ disposition along with conceptual remedy options available to District for marsh preservation or mitigation. Staff received notice from SJRWMD on June 24, 2019 requesting coordination of plan of action for rectifying a 4.493 functional loss of onsite mitigation areas (marshes) which may include a combination of various mitigation strategies including mitigation bank credits, replanting marsh or littoral zones (or combination of same). The updated mitigation plan is to be submitted prior to July 26, 2019. The DCDD's environmental consultant, Atlantic Ecological Services, provided an update of 30-year cost comparisons for three (3) options available and presented to Board of Supervisors at the July meeting. Upon discussion, the Board authorized staff to pursue implementation of straight credit purchase (Option 1 – \$336,750) and to provide appropriate notice to SJRWMD describing same. The DCDD provided SJRWMD official notice of desired mitigation bank option and provided payment and agreement forms for same. Permit modification application was prepared by consultant and District received permit approval notice from SJRWMD. A Notice of Agency Action was published on October 2, 2019 in the Flagler/ Palm Coast News-

Tribune providing 21 day notice to parties having substantial interests to comment on the permit modification. No update to report.

### **Irrigation Storage/Usage**

Design Project to pump storm water from the Hammock Dunes lake system is on hold. We maintain a portable diesel powered pump we can quickly begin pumping from the storm water system should the need arise.

A routing study by the City of Palm Coast's consulting engineer for a new reuse water main that would increase the amount of reuse water DCDD could obtain has been narrowed to three (3) routes. City is concentrating its efforts on getting the new wastewater treatment plant #2 online and will re-focus on the reuse water main upgrade after the plant is up and running. Board authorized ETM Consultant Scope of Services to perform an Irrigation Sourcing Master Plan to evaluate future build-out irrigation demands and to illustrate and quantify all available water sources, along with any capacity restraints, for meeting future needs. ETM provided draft technical review memorandum findings and discussed with staff during meeting held on April 18. ETM is awaiting DCDD staff review and response to additional demographic information concerning the service area and estimated in-fill growth rate prior to delivery of draft final report. Staff visited with City of Palm Coast Utilities personnel at WWTP No. 1, located off Old Kings Rd and Utility Drive, to observe configuration and condition of existing reuse transmission pump assembly used to pump reclaimed water from PCUC plant to the District's reuse storage ponds. The purpose of the visit was to better understand existing configuration for developing available pumping improvement evaluation strategies.

### **Weir Structure**

We received preliminary plans for weir gate next 7/24/17. Cost of gate is \$10K (not installed cost). Also have directed engineer to include weir structure design for the structure near Blue Heron Ln. Follow-up report indicated an estimated construction cost of \$25,000 to \$30,000 each Met with the engineer September 26, 2017 to go over report. Meeting held Oct. 20 with SJRWMD. DCDD needs to develop drainage plan showing downstream drainage impacts. Meeting held with County's stormwater consulting engineer (ETM) 12/7/17. Drainage study \$50K+ using model developed for Malacompra Drainage area. Meeting held with Flagler Co. January 26, 2018 to discuss their plans for drainage in the Marineland Acres area, maintenance planned for the Malacompra Ditch and tributaries and drawdown of the lakes in Hammock Dunes, Ocean Hammock and Hammock Beach through an adjustable weir or pumping or harvesting for reuse purposes. Staff issued PO to ETM (\$28K) for performance of a Stormwater Harvesting Evaluation - Phase 1, Preliminary Assessment. The Phase 1 assessment results were shared with the Board in a technical memorandum prepared by the consultant during the November meeting. Minimal flood control benefit was realized by the stormwater harvesting although a potential benefit is available as a reclaimed source of water for irrigation. Staff received guidance from Board to await findings from ETM's Irrigation Sourcing

Master Plan evaluation prior to moving forward with the consultant's additional scope of services proposal related to a Feasibility Study for Hotel Trace Weir Removal/Modification. No update to report.

### **Intersection Improvement Project**

KCA provided a proposal regarding lane additions and/or signalization improvements for the intersection of Hammock Dunes Pkwy and Camino del Mar under their continuing services agreement to perform an intersection study that will identify the level of service and assess options available to the DCDD to improve the intersection. The fee proposal for the services described in the proposal is \$57,610 and PO was issued subsequent to staff presentation and discussion during September board meeting. Staff reviewed 2<sup>nd</sup> draft traffic technical memorandum/report in early February that included results of the recent 24-hour traffic counts performed by KCA in early October along with future traffic projections and improvement considerations along with staff review comments. Staff received final report that includes considerations for evaluating future intersection needs based on appropriate annual traffic growth rate projections in May 2019. Staff issued purchase order to KCA (consultant) for professional engineering and surveying services proposal to perform concept roadway and drainage designs for proposed intersection improvements to determine proposed right of way limits for future project and land acquisition. The surveying activity related to this project has been completed and conceptual lane widening plans were received. Consultant performed field visit to ground truth existing topographic features, infrastructure and landscaping items impacted by draft conceptual lane widening plan for further consideration and discussion. The consultant prepared a level of service analysis for an alternate lane configuration option based on removing of the proposed dedicated northbound left turn lane along Hammock Dunes Pkwy and modifying to a proposed left turn – through lane combination for minimizing additional right-of-way impacts. KCA's level of service analysis for eliminating the proposed northbound left turn lane on Hammock Dunes Parkway results in a level of service decrease from A to B in 2045 AM Peak hour (delay increases for 8 to 12.5 seconds). A request for consideration of adding a bike lane westbound over the bridge was received and will be considered in the eventual intersection design.

### **HD Parkway - ICWW Bridge - Repair Plans**

Kisinger, Campo and Associates (KCA) performed the biennial inspection of the Hammock Dunes Bridge in 2017 and 2019. Results of the inspections indicated acceptable Sufficiency Ratings and Health Indices with little to no change between 2017-2019 although both inspections indicated further items of repair for consideration. In 2017, core samples of Piers 13-16 were taken to test for chloride concentration at steel depth to ascertain current rate of corrosion and to assist budget development for necessary structural repairs. Results of core sample findings by FDOT state lab indicated active corrosion in the pile cap steel for substructure units in the channel. Funding for adding galvanic protection for the bridge piers was established in the 2019-20 draft budget as part of the 5 year capital improvement plan for the bridge.

Upon staff presentation and discussion of the 2019 inspection report findings with Board of Supervisors in July 2019, the anticipated budget was further refined, and staff coordinated a scope of work and contract for design related activities for bridge repair needs. The scope of work includes design considerations for cathodic protection (determined in 2017), along with ladder removal and other necessary repair activities identified in the 2019 report. A work authorization for design services was issued to KCA in November 2019 for developing plans to address repair needs and items identified in the referenced biennial inspection reports. KCA delivered draft plans for associated repair details to the District on February 21, 2020. A meeting was held on March 6, 2020 to discuss the project and information contained in the draft plan set.

### **Standby, Emergency Pumps**

Recovery efforts following Hurricanes Mathew and Irma indicated a need for provision of additional emergency backup pumping equipment to maintain sewer service to our customers during extended power outage periods. Staff has identified existing wastewater pumping stations as the most critical and highest priority for provision of standby emergency pumping capability. The pumping systems selected and purchased separately by the District are diesel motor driven pumps manufactured by Godwin Pumps (supplied by Xylem) capable of pumping a large range of flow at varying head pressures and are provided with sound attenuating enclosures and critical grade silenced mufflers for noise purposes. This is a budgeted annual capital improvement item. Priority 1 & 2 Facilities completed.

Priority 3 Facilities (2019-20): LS-10, 34 Island Estates and LS-15, Ocean Way S: Status: Authorized proposal from CPH Engineers for related survey and engineering design services in the amount of \$26.5K for placement and installation of standby pump piping and site improvements to include rehabilitation and upgrade for LS 10 mechanical and electrical components. Engineer completed site survey work. Staff provided review comments on draft site plans for both stations Staff issued purchase order for purchase of bypass pumps from Godwin/ Xylem based on Florida Sherriff's Association (FSA) bid pricing and proposal. Staff also provided recommendation for pump assembly selection and upgrade for LS 10 (34 Island Estates) facility. Staff met with pump manufacturer and control panel fabricators for assisting development of updated plans standard for future District lift station configurations. Received delivery of bypass pumps in mid-February. Staff provided comments to CPH for project plans set received on February 28. Awaiting receipt of final revised plans and bid documents from consultant for eventual bid advertisement in mid to late March.

## **FDEP – Water Treatment Plant RO Concentrate Disposal – Permit Renewal**

Staff and Consultant (Mead & Hunt) prepared and submitted the Industrial Wastewater Discharge Permit Renewal Application in early July in accordance with current FDEP Permit No. FL0355259. This application is processed every five years and is due 6 months prior to the current expiration date of February 29, 2020. The District is required by FDEP to prepare and submit monthly discharge monitoring reports for the RO demineralized concentrate byproduct of the reverse osmosis process discharged to the ICWW along with semi-annual toxicity reports. Additional sampling and testing activities are required to be performed during the 5 year permit renewal application process to periodically monitor and review a broader range of potential pollutants of concern to insure no adverse changes in water quality is realized by our current source water conditions, treatment methods and treatment chemicals used.

The purpose of the report is to illustrate the DCDD is maintaining reasonable assurances that the permittee's disposal of demineralized concentrate from the water treatment RO process continues to meet current regulatory permit conditions and is not adversely affecting nearby surface water quality standards. Staff is awaiting confirmation of permit renewal from the FDEP. Staff received FDEP Request for Additional Information (RAI) 1 dated August 7, 2019 with a couple of items listed requiring either additional clarification and/ or data source references. Staff and consultant prepared and submitted draft response to FDEP on September 26, 2019. Staff and consultant discussed the draft RAI 1 response with FDEP regulatory personnel and the official response to RAI 1 response was submitted on October 21, 2019. FDEP issued a copy of draft Permit on November 8, 2019. Staff and consultant reviewed draft permit and provided comments to the FDEP on November 14, 2019. FDEP issued Notice of Intent to issue permit on December 16. Notice of Intent was published in News Journal on December 20 with proof of publication received and forwarded to FDEP on December 30, 2019. Final permit was issued upon completion of public notice period on January 6, 2020 having effective date of March 1, 2020. Completed – awaiting receipt of revised Discharge Monitoring Report format anticipated for April 2020.

## **WTP Generator Fuel Tank (4000 Gallons) Replacement Project**

Staff issued purchase order to Power Secure Service, Inc. (PSSI) to fabricate and replace the existing fuel tank and to perform closure and removal services for the existing tank. The fee for the services described in the proposal is \$60,453 and PO was issued subsequent to staff presentation and discussion during August Board of Supervisors meeting. Payment for tank deposit was issued and vendor performed site measurements for tank manufacture purposes in mid-August. Estimated tank delivery is sixteen (16) weeks. Vendor indicates tank fabrication is tentatively scheduled for completion on or around October 18. Vendor is also preparing new tank registration and old tank closure documents for eventual review and execution by District for submittal to FDEP. Staff prepared and submitted necessary tank registration and certification of financial responsibility forms to FDEP to

accommodate new tank installation. PSSI completed old tank removal and new tank installation on October 22 and 23. Staff coordinated fuel removal and replacement with Port Consolidated (DCDD fuel vendor). FDEP inspection for new tank installation and old tank removal and closure occurred on October 29, 2019. Staff received final paperwork from PSSI and FDEP to complete tank registration and closure activities in accordance with FDEP requirements. Tank registration forms updated and forwarded to FDEP. FDEP Tank Registration System updated to include new tank installation and old tank removal. Generator access platform was delivered and successfully installed on March 3 by PSSI.

### **Tertiary Filter Replacement (Reclaimed Water Distribution System)**

Operations staff received delivery of new disc filter system manufactured by the Miller Leaman Company (located in Daytona Beach on December 18. The new system upgrades the filter flow capacity of the existing system currently rated at 4,400 gallon per minute (gpm) to 6,600 gpm (3 each skids rated @ 2,200 gpm). The primary function of the system is to filter algae and other sediments that are contained in the District's reclaimed water storage pond system prior to entering the District's reclaimed water distribution system. The upgraded system is designed to filter reclaimed water flow rates realized during high demand periods. The filtering system also contains a master control scheme to insure only one (1) skid is backwashing at a time. McMahan Construction Company assisted the District with disconnection and removal of the existing system and initial installation of the new system. This project is contained in the District's 2020 Capital Improvement Projects Budget. Final skid installation activities were performed by McMahan with manufacturer oversight on February 5, 2020 upon receipt of additional spool pieces and bellow-flex-expansion components determined necessary for final installation configuration. Start-up and training occurred for the skid configuration provided. Operations staff desires a separate three (3) skid operation scenario and the manufacturer is currently working on program and instrumentation modifications to support same.

### **WTP Reverse Osmosis (RO) Membrane Evaluation - Replacement**

A project kick-off meeting was held with staff and consultant (Mead & Hunt) on February 19, 2020 to discuss project goals and to better familiarize their understanding of the District's plant operating parameters and configuration. The current water treatment plant RO Skids 1 & 2 have been in operation since 2007. These older two (2) skids are illustrating signs of wear and a lessened capacity to efficiently process water compared to previous periods. The engineering scope of work includes an evaluation of various membrane manufacturer products available and their compatibility to effectively treat and process the District's raw water constituents to obtain finished water quality parameters desired. Membranes will be compared based on expected finished water quality, capital and operational costs. Staff has been providing various information sources to the consultant for assisting the membrane evaluation to include plant record drawings, water sampling and

testing lab records along with plant capacity analysis reports. Upon completion and selection of desired products, the consultant is tasked with preparing permit modifications, technical specifications, procurement and/ or bid documents and construction phase oversight for assisting the District with this project.

### **Stormwater Utility Program Development & Implementation**

A project kick-off meeting was held with staff and consultant team (CDM Smith) on February 26, 2020 to discuss project goals and to better familiarize their understanding of the District's overall stormwater system configuration, available mapping and records resources and other information concerning the District's utility billing system and processing procedures. Items of discussion also included the District's available existing stormwater infrastructure records as pertaining to development of a Geographic Information System (GIS) mapping and conditions assessment deliverable. Other discussions ensued related to development of an appropriate stormwater rate structure along with methods and resources available to assist this task. Staff was also asked to describe various aspects of our current stormwater system responsibilities and maintenance goals for development of an eventual stormwater program and level of service understanding. Several data items were requested and subsequently forwarded to the consultant to include current and previous year budgetary information, current utility billing account summaries, overview of District built-out and population conditions contained in 2019 Public Facilities Report along with sample stormwater system record drawings for use in preparing preliminary example GIS mapping exhibit.
