- I. Roll Call & Agenda
- II. Approval of the Minutes
 - A. April 17, 2020 Meeting
- III. Audience Comments
- IV. Reports and Discussion Items
 - Discussion on Capacity Fee Issues for Commercial Accounts
 - Discussion on Stormwater Utility / Reclaimed Flow
 - Renaissance / Beach Walk Development Update
 - Toll Facility Bid (will be provided under separate cover)
 - B. Lift Station 10 & 15 Back Up Pump Installation Bid
 - C. Report on the Number of Registered Voters
 - D. Consideration of Resolution 2020-02, Approving the Proposed Budget for Fiscal Year 2021 and Setting a Public Hearing Date for Adoption
- V. Staff Reports
 - Attorney
 - E. Engineer Report
 - Manager

- o Bridge Report for April (will be provided under separate cover)
- F. Additional Budget Items Report
- VI. Supervisors' Requests and Audience Comments
- VII. Financial Reports
 - G. Balance Sheet & Income Statement
 - H. Assessment Receipts Schedule
 - I. Community Projects Schedule
 - J. Approval of Check Register
- VIII. Next Meeting Scheduled for June 12, 2020 @ 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road, Palm Coast, Florida
- IX. Adjournment

A.

MINUTES OF MEETING DUNES COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Dunes Community Development District was held Friday, April 17, 2020 at 9:30 a.m. using *Zoom* media technology pursuant to Executive Orders 20-52 and 20-69 issued by Governor DeSantis on March 9, 2020 and March 20, 2020 respectively, and pursuant to Section 120.54(5)(b)2., *Florida Statutes*.

Present and constituting a quorum were:

John G. Leckie, Jr.ChairmanGary CrahanVice ChairmanGeorge DeGovanniAssistant SecretaryCharles SwinburnAssistant Secretary

Dennis Vohs Treasurer

Also present were:

Greg Peugh
Jim Perry
District Manager
District Representative
District Counsel
Dave Ponitz
District Engineer

The following is a summary of the discussions and actions taken at the April 17, 2020 meeting. A copy of the proceedings can be obtained by contacting the District Representative.

FIRST ORDER OF BUSINESS Roll Call

Mr. Leckie called the meeting to order at 9:30 a.m.

SECOND ORDER OF BUSINESS Approval of Minutes

A. February 14, 2020 Meeting

Mr. Crahan provided corrections, which will be included in the final version.

On MOTION by Mr. Crahan seconded by Mr. Swinburn with all in favor the minutes of the February 14, 2020 meeting were approved.

THIRD ORDER OF BUSINESS Audience Comments

There being none, the next item followed.

FOURTH ORDER OF BUSINESS

Reports and Discussion Items

Pandemic Discussion

Mr. Peugh stated we're trying to protect our workers as best we can. We bought additional gloves, goggles, face shields, and hand sanitizer. We're having a hard time getting face masks in. We're also practicing social distancing by closing facilities to the general public. Any updates we get from Flagler County Emergency Operations or ADP, our human resources partner, are shared with our employees.

I did not want to turn off any accounts that are delinquent at this point. People have asked to waive late fees, so I wanted to get the Board's position.

The Board members agreed to defer payments on delinquent accounts until July 1, 2020.

Mr. Peugh stated we closed the bridge facility and tolls have been suspended as of April 2, 2020. We did not close any accounts on April 1st. We gave the accounts an 18-month grace period and I'd like to extend that to two years.

The Board members agreed to extend the grace period.

Mr. Peugh noted a record of cars crossing the bridge is being kept while the toll booths are closed.

Mr. Swinburn stated we have \$100,000 built up in the community projects account. We had talked about using that money to help pay for the cost of reconfiguring the intersection. Right now, we have a more immediate use, if we can get clearance, to make up for the shortfall that has happened by not collecting tolls at the bridge.

Mr. Peugh stated I can discuss that with the County Administrator to get his opinion and come back to the Board, but I can tell you right now their concern is testing sites and controlling the outbreak. I'm not sure right now would be the best time to ask him that. We can ask and go from there.

Mr. Leckie stated I think we just play it by ear. We've talked about just being down for the month of April. I think we open the tolls when things go back to work.

Mr. Peugh stated we may have to go down to one open lane at the toll booths. We can move to accepting credit cards rather than cash most likely within a month. We could also put credit card machines in the booths so we're not handling the cash. That would cost about \$40,000. We will give you options next month to discuss.

Mr. Crahan suggested looking into the Square credit card reader.

Discussion on Capacity Fee Issues for Commercial Accounts

Mr. Peugh stated there's no change in the status of the commercial accounts. This year we have sent out 16 residential over capacity letters. We've received responses on almost all of those and on a lot of them we have rescinded the charges because they had a reason and provided documentation.

Discuss Stormwater Utility / Reclaimed Flow

Mr. Peugh stated in regard to the stormwater utility, the consultant put together a test area as suggested by Mr. Crahan. I'm very pleased with it. They had the stormwater lines in addition to the water, reclaim and sewer line plans which were digitized for that area.

For the reuse, we looked at the pump station in Palm Coast and the pump that they use to send water to us has not been touched since 2006. It's probably just worn out. They put a bid out to put a new pump in at a higher flow rate and if they get that pump in and it puts together all of the flow that we think we can get over here, it should solve our problems for reclaimed water for the foreseeable future. They rejected all the initial bids and are supposed to be rebidding shortly.

Mr. Chiumento joined the meeting at this time.

Mr. Peugh stated we brought in a temporary stormwater pump that we pump through the filters and disinfection. This is the earliest we have ever done it. Our ponds were getting very low. We have looked at during a drought scenario possibly doing a north/south split on the reclaim system, so for example, Hammock Dunes gets three days a week, and Ocean Hammock gets three days a week. We would physically limit that, where there would not be water to one side or the other for three days. We're going to do some experimenting with that and see where the pressure is before we say it works or doesn't work.

Renaissance / Beach Walk Development Update

Mr. Peugh stated I haven't heard anything from the Renaissance developer.

B. Ratification of Oare Property Agreement

Mr. Peugh gave an overview of the agreement made between the parties in the Mutual Release and Settlement Agreement enclosed in the agenda package.

On MOTION by Mr. Vohs seconded by Mr. Crahan with all in favor the Mutual Release and Settlement Agreement with Oare Associates, LLC was ratified.

Mr. Peugh informed the Board he would provide a proposed availability fee bill for another property to review prior to sending it out.

Mr. Peugh stated in regard to Beach Walk, Atlee Development wants to develop 10 or 12 acres just to the west of our office. This also ties to the concentrate line that is on their property. The developer wants to put about 50 homes there and would like us to treat the stormwater. I told him we've never gone outside the District boundaries, except for Publix. The Board was in agreement to continue this policy at this time.

Toll Facility Bid Discussion

Mr. Peugh stated currently we're going back and forth with the subcontractor that is doing the building work. We have one proposal in that saves approximately \$200,000, but he left out a couple of things so we're having an internal meeting Monday and hopefully I will have the final number for the next Board meeting.

FIFTH ORDER OF BUSINESS

Staff Reports

Attorney

There being nothing to report, the next item followed.

C. Engineer - Report

Mr. Ponitz gave an overview of the engineer's report, a copy of which was included in the agenda package.

Manager

D. Bridge Report for March

Mr. Peugh stated in February, vehicle traffic was up 5.21% and revenue was down about 0.10% from last year. Vehicle traffic for March was down 13% and revenue was down almost 26%. I would attribute that to the Coronavirus. We generally get bike week traffic and lots of people pay cash, so it was down significantly. Our total accounts are almost at 19,400; 5,400 are using the website and we've sold 10,600 loyalty cards.

Miscellaneous Items

Mr. Peugh stated we restriped the intersection at Camino Del Mar and Hammock Dunes Parkway. Thermoplastic will be the way to go in the future because it's already starting to fade due to the enormous amount of traffic there.

We were going to take out a fire hydrant in Monterrey, Madeira and Laguna and put out a boil water notice, however we've postponed that with everyone home due to the Coronavirus.

Mr. Swinburn asked Mr. Peugh if notice was sent out regarding shut down of the toll collection

Mr. Peugh responded that he informed the Flagler County public information officer and made the announcement on a call with all of the municipalities within the County. The HOAs within the District and the local newspaper will also be notified per a suggestion from Mr. Crahan and Mr. Swinburn.

E. Additional Budget Items Report

The report on FY20 additional budget items was included in the agenda package.

SIXTH ORDER OF BUSINESS Supervisors' Requests and Audience Comments

There being none, the next item followed.

SEVENTH ORDER OF BUSINESS Financial Reports

- F. Balance Sheet & Income Statement
- G. Assessment Receipts Schedule
- H. Community Projects Schedule
- I. Approval of Check Registers

On MOTION by Mr. Vohs seconded by Mr. Crahan with all in favor the check register for the period ending January 31, 2020 was approved.

On MOTION by Mr. Vohs seconded by Mr. Crahan with all in favor the check register for the period ending February 29, 2020 was approved.

EIGHTH ORDER OF BUSINESS		Next Meeting Scheduled for Friday, May 8 2020 @ 9:30 a.m. at the Dunes CD Administrative Office, 101 Jungle Hut Road Palm Coast, Florida

RE: CDD Registered Voters

Dear Courtney Hogge:

Per your request, in accordance with the requirements of Chapter 190(3)(a)(d), the total number of registered voters for the Dunes Community Development District as of April 15, 2020 is 2418.

If you have any questions or require any further assistance, please contact this office.

Thank you,

Kaiti Lenhart
Supervisor of Elections

RESOLUTION 2020-02

A RESOLUTION APPROVING THE DUNES COMMUNITY DEVELOPMENT DISTRICT'S PROPOSED BUDGETS FOR FISCAL YEAR 2021 AND SETTING A PUBLIC HEARING THEREON PURSUANT TO FLORIDA LAW

WHEREAS, the District Manager has heretofore prepared and submitted to the Board the proposed General Fund Budget and Enterprise Fund Budgets for Fiscal Year 2021; and

WHEREAS, the Board of Supervisors has considered said proposed budgets and desires to set the required public hearing thereon;

NOW, THEREFORE BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE DUNES COMMUNITY DEVELOPMENT DISTRICT;

- 1. The General Fund Budget and Enterprise Fund Budgets proposed by the District Manager for Fiscal Year 2021 are hereby approved as the basis for conducting a public hearing to adopt said budgets.
- 2. A public hearing on said approved budgets is hereby declared and set for the following date, hour and place:

Date: August 14, 2020 Hour: 9:30 AM

Place: The Dunes CDD's Administrative Office

101 Jungle Hut Road Palm Coast, FL

Notice of this public hearing shall be published in the manner prescribed in Florida Law.

Adopted this 8th day of May 2020.

John G. Leckie Jr., Chairman

Gregory L. Peugh, Secretary

BUDGET HIGHLIGHTS FY 2020

^{1.} Assessments are the same from last FY.

^{2.} Payroll includes an average 3% increase over last FY Budget.

^{3.} See Capital Improvements List.

^{4. #} Health Insurance is now based on a calendar year due to the ACA. We won't get new rates until November. The amount is an estimate of the cost.

^{5. ##} Liability Insurance premium is an estimate, but it should be very close to the final cost.

BUDGET HIGHLIGHTS FY 2020

Payroll includes an average 3 % increase over last FY Budget.
 See Capital Improvements List.

^{\$140,000} from W & S Fund Surplus to General Fund per Opinion of Counsel and Grau's letter.

4. # Health Insurance is now based on a calendar year due to the ACA. We won't get new rates until November. The amount is an estimate of the cost.

5. ## Liability Insurance premium is an estimate, but it should be very close to the final cost.

BUDGET HIGHLIGHTS FY 2020

\$221,000

from Bridge Surplus Account to General Fund.

^{1.} Revenues based on past FY projections and revenues as Cash trips are declining, Bpass trips are increasing, and vehicle trips are increasing as such the income has not stabilized.

^{2.} Payroll includes an average 3% increase over last FY Budget.

^{3.} Maintenance Reserves based on Engineering and Financial Consultant's recommendation.

^{5. #} Health Insurance is now based on a calendar year due to the ACA. We won't get new rates until November. The amount is an estimate of the cost.
6. ## Liability Insurance premium is an estimate, but it should be very close to the final cost.

• IV. Engineer

Irrigation Storage/Usage

The District currently maintains a portable diesel powered pump (and leases a larger pump during peak irrigation demand months) to provide a source of stormwater to supplement our reclaimed water needs when necessary.

A routing study was performed by the City of Palm Coast Utilities (PCU) for a new reuse water main that would increase the amount of reuse water to the DCDD. The City is currently concentrating its efforts on placing their WWTP #2 online and will refocus on the reuse water main upgrade after the plant is up and running. Board authorized ETM Consultant Scope of Services to perform an Irrigation Sourcing Master Plan to evaluate future build-out irrigation demands and to illustrate and quantify all available water sources, along with any capacity restraints, for meeting future needs. ETM provided draft technical review memorandum findings and discussed with staff during meeting held on April 18. ETM is awaiting DCDD staff review and response to additional demographic information concerning the service area and estimated in-fill growth rate prior to delivery of draft final report. Staff visited with PCU personnel at WWTP No. 1 to observe configuration and condition of existing reuse transmission pump arrangements and assemblies used to pump reclaimed water from PCU plant to the District's reuse storage ponds. The purpose of the visit was to better understand existing configuration for developing available pumping improvement evaluation strategies. District Manager reported to Board in April that Palm Coast received bids recently for replacing and upsizing the existing reclaimed pump at WWTP #1, which will increase the City's capability to pump additional reclaimed source water to the District. We understand that all bids were rejected, and the City was preparing to re-advertise the project in near future. Staff recently tested isolation of north and south area irrigation systems to determine operational effects. Preliminary findings indicate peak flow demand rates may be reduced along with pressure gradients stabilized as a result of the reduction in flow. Additional evaluation and testing to be continued and assessed prior to modification of irrigation periods and services.

Intersection Improvement Project (Hammock Dunes Pkwy & Camino del Mar) KCA provided a proposal to perform an intersection study for identifying level of service conditions and to assess viable options to improve the intersection. A PO was issued (\$57K) for KCA's proposed services upon staff presentation to Board of Supervisors in September 2018. Staff received final report in May 2019 that included considerations for evaluating future intersection needs based on appropriate annual traffic growth rate projections. In February 2019 staff issued purchase order (\$94K) to KCA (consultant) to perform professional engineering and surveying services contained in their proposal to perform conceptual roadway and drainage design for the intersection improvements to determine proposed right of way limits for future project and land acquisition. The surveying activity related to this project has been

completed and conceptual lane widening plans were received. The consultant prepared a level of service analysis for an alternate lane configuration option based on removing the proposed dedicated northbound left turn lane along Hammock Dunes Pkwy and modifying to a proposed left turn – through lane combination for minimizing additional right-of-way impacts. KCA's level of service analysis for eliminating the proposed northbound left turn lane on Hammock Dunes Parkway results in a level of service decrease from A to B in 2045 AM Peak hour (delay increases for 8 to 12.5 seconds) Although not included in the LOS analysis, the addition of a free flow right turn lane improves the overall delay time at the intersection. A request for consideration of adding a bike lane westbound over the bridge was received and will be considered in the eventual intersection design. A video meeting was held with the consultant on April 3, 2020 to provide comments and clarifications on the preliminary project plan set and future right of way implications. Staff received updates to preliminary right-of-way plans, Engineer's cost estimate and Auto-turn exhibits in response to staff inquiry during the plans review meeting. Basic traffic evaluation findings indicate the auxiliary lane length on Camino Del Mar approach can be reduced conservatively to avoid additional reconstruction limits due to location of existing pedestrian path along with providing a larger turning radius at the northeast quadrant of the intersection to better accommodate truck turning movements.

HD Parkway - ICWW Bridge - Repair Plans

Kisinger, Campo and Associates (KCA) performed the biennial inspection of the Hammock Dunes Bridge in 2017 and 2019. Results of the inspections indicated acceptable Sufficiency Ratings and Health Indices with little to no change between 2017-2019 although both inspections indicated further items of repair for consideration. In 2017, core samples of Piers 13-16 were taken to test for chloride concentration at steel depth to ascertain current rate of corrosion and to assist budget development for necessary structural repairs. Results of core sample findings by FDOT state lab indicated active corrosion in the pile cap steel for substructure units in the channel. Funding for adding galvanic protection for the bridge piers was established in the 2019-20 draft budget as part of the 5 year capital improvement plan for the bridge.

Upon staff presentation and discussion of the 2019 inspection report findings with Board of Supervisors in July 2019, the anticipated budget was further refined, and staff coordinated a scope of work and contract for design related activities for bridge repair needs. The scope of work includes design considerations for cathodic protection (determined in 2017), along with ladder removal and other necessary repair activities identified in the 2019 report. A work authorization for design services was issued to KCA in November 2019 for developing plans to address repair needs and items identified in the referenced biennial inspection reports. KCA delivered draft plans for associated repair details to the District on February 21, 2020.

A teleconference meeting was held with the consultant on March 6, 2020 to provide comments and request clarifications on the preliminary project plan set. Awaiting plans updates based on meeting summary. Nothing new to report.

Standby, Emergency Pumps

Recovery efforts following Hurricanes Mathew and Irma indicated a need for provision of additional emergency backup pumping equipment to maintain sewer service to our customers during extended power outage periods. Staff has identified existing wastewater pumping stations as the most critical and highest priority for provision of standby emergency pumping capability and illustrated same in CIP Program. The pumping systems selected and purchased separately by the District are diesel motor driven pumps manufactured by Godwin Pumps (supplied by Xylem) capable of pumping a large range of flow at varying head pressures and are provided with sound attenuating enclosures and critical grade silenced mufflers for noise purposes. This is a budgeted annual capital improvement item. Priority 1 & 2 Facilities completed.

Priority 3 Facilities (2019-20): LS-10, 34 Island Estates and LS-15, Ocean Way S: Status: Authorized proposal from CPH Engineers (\$26.5K) for related survey and engineering design services for placement and installation of standby pump piping and site improvements to include rehabilitation and upgrade for LS 10 mechanical and electrical components. Engineer completed site survey work. Staff issued purchase order for purchase of bypass pumps from Godwin/ Xylem (\$106K) based on Florida Sherriff's Association (FSA) bid pricing and proposal. Staff also provided recommendation for pump assembly selection and upgrade for LS 10 (34 Island Estates) facility. Staff met with pump manufacturer and control panel fabricators for assisting development of updated plans and standard panel details for future District lift station configurations. Received delivery of bypass pumps in mid-February. Staff received final plans and bid documents and placed bid advertisement in News Journal on March 17 for receipt of bids on April 16. Approximately five (5) contractors have requested bid documents and four (4) eventually attended site visits. Staff received bids on April 16, 2020 from four (4) interested bidders ranging between \$254,551 to \$309,000. Engineer and staff reviewed bid results and tabulation and find that all bidders provided a responsive bid. The apparent low bid was received from Danus Utilities, Inc. of Sanford, FL.

WTP Reverse Osmosis (RO) Membrane Evaluation - Replacement

A project kick-off meeting was held with staff and consultant (Mead & Hunt) on February 19, 2020 to discuss project goals and to better familiarize their understanding of the District's plant operating parameters and configuration. The current water treatment plant RO Skids 1 & 2 have been in operation since 2007. These older two (2) skids are illustrating signs of wear and a lessened capacity to efficiently process water compared to previous periods. The engineering scope of work includes an evaluation of various membrane manufacturer products available and their compatibility to effectively treat and process the District's raw water

constituents to obtain finished water quality parameters desired. Membranes will be compared based on expected finished water quality, capital and operational costs. Staff has been providing various information sources to the consultant for assisting the membrane evaluation to include plant record drawings, water sampling and testing lab records along with plant capacity analysis reports. Upon completion and selection of desired products, the consultant is tasked with preparing permit modifications, technical specifications, procurement and/ or bid documents and construction phase oversight for assisting the District with this project. Staff is responding to additional requests for information and providing additional raw and concentrate water sampling and testing results. Staff received notice from consultant that their draft evaluation is nearing completion and that a meeting to discuss results will be forthcoming soon.

Stormwater Utility Program Development & Implementation

A project kick-off meeting was held with staff and consultant team (CDM Smith) on February 26, 2020 to discuss project goals and to better familiarize their understanding of the District's overall stormwater system configuration, available mapping and records resources and other information concerning the District's utility billing system and processing procedures. Items of discussion also included the District's available existing stormwater infrastructure records as pertaining to development of a Geographic Information System (GIS) mapping and conditions assessment deliverable. Other discussions ensued related to development of an appropriate stormwater rate structure along with methods and resources available to assist this task. Staff was also asked to describe various aspects of our current stormwater system responsibilities and maintenance goals for development of an eventual stormwater program and level of service understanding. Several data items were requested and subsequently forwarded to the consultant to include current and previous year budgetary information, current utility billing account summaries, overview of District built-out and population conditions contained in 2019 Public Facilities Report along with sample stormwater system record drawings for use in preparing preliminary example GIS mapping exhibit. Our consultant CDM, via Microsoft Teams video meeting on April 2, provided draft example of GIS pilot for portions of the Granada Estates sample area. GIS pilot area links forwarded to Board of Supervisors for review. Staff scheduling coordination of as-built plans pickup and scanning by consultant for development of eventual GIS system.
