A.

MINUTES OF MEETING DUNES COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Dunes Community Development District was held Friday, October 11, 2019 at 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road, Palm Coast, Florida.

Present and constituting a quorum were:

John G. Leckie, Jr.ChairmanGary CrahanVice ChairmanGeorge DeGovanniAssistant Secretary

Dennis Vohs Treasurer

Also present were:

Greg Peugh District Manager
Jim Perry District Representative

Michael Chiumento District Counsel
Dave Ponitz District Engineer

Daniel Baker Hammock Beach Resort
Carlton Grant Hammock Beach Resort
Brad Hauer Hammock Beach Resort

The following is a summary of the discussions and actions taken at the October 11, 2019 meeting. A copy of the proceedings can be obtained by contacting the District Representative.

FIRST ORDER OF BUSINESS Roll Call

Mr. Leckie called the meeting to order at 9:30 a.m.

SECOND ORDER OF BUSINESS Approval of Minutes

A. September 13, 2019 Meeting

Mr. Vohs and Mr. DeGovanni provided corrections, which will be included in the final version of the minutes.

On MOTION by Mr. Vohs seconded by Mr. Crahan with all in favor the minutes of the September 13, 2019 meeting were approved as revised.

THIRD ORDER OF BUSINESS

Audience Comments

Comments from the representatives of the Hammock Beach Resort were taken during the capacity fee discussion item.

FOURTH ORDER OF BUSINESS Reports and Discussion Items

Discussion on Capacity Fee Issues for Commercial Accounts

Mr. Baker and Mr. Grant gave an overview of the remediation that took place to bring the Hammock Beach Resort's water consumption down to an acceptable level.

Mr. Peugh stated our intent is to do commercial audits every year once we get through the first one. From my perspective Hammock Beach Resort has done a great job. I don't see a reason to charge them the fees at this point. Going forward if consumption creeps up we will revisit that.

Mr. Leckie stated I don't think there is any reason for us to charge them anything extra.

Mr. Peugh stated Cinnamon Beach provided us with some additional information and they also said they added a splash park, which we weren't aware of, so we are setting up a meeting with them because initially they look like they're over their capacity. The Ocean Hammock golf clubhouse and 16th Road lodge went down significantly for Hammock Beach.

Mr. Ponitz stated Porto Mar illustrated they had a problem with fountains, and they've resolved that, so their usage has gone down significantly.

Mr. Peugh noted he would draft letters to the remaining commercial account holders with counsel to review prior to distribution.

Discussion Weir Structures / MalaCompra Drainage

Mr. Peugh stated we are working on the stormwater utility. CDM has given the scope and we are reviewing that and once we get a fee, we will present that to the Board. ETM has given us a draft of the report for where we're going to get the reclaimed water for the next several years, so we need to review that.

Mr. Crahan stated as part of the stormwater utility we are looking at a progressive program to clean out the system connecting the storm drains and lakes. Did we figure out any sort of order of magnitude of cost?

Mr. Peugh stated we would like to first locate all of the assets, i.e. manholes and pipes, and as they're doing that, we will get an initial assessment. If we can get through 10% every year we would like to do that but it's going to be a long-term plan to get through the stormwater system.

Mr. DeGovanni suggested staff draft a letter to the homeowner's associations requesting that the landscape vendors avoid blowing debris into the culverts.

Renaissance / Beach Walk Development Update

Mr. Peugh stated we met with Charlie Faulkner, a civil engineer representing the <u>Oare</u> property, regarding Renaissance. He said the Atlee Development Group's due diligence was up this week and there may be an extension of a few weeks, so he wasn't sure what was going to happen with that.

Mr. Leckie stated I spoke with someone at ICI that said unless the price of the land comes down dramatically, he doesn't see anyone going forward with developing it.

Mr. Peugh stated it doesn't appear we've been charging the Oare property lot an availability fee for water, sewer and reclaimed. It's in the neighborhood of \$5,000 a year and they bought the parcel in 2005. We will look into it further and send them a bill so it may be a discussion at a later board meeting.

Beach Walk was approved at the September 16th meeting of the County Council for 50 units.

B. Hammock Dunes Marshes Update

Mr. Peugh stated the enclosures for this item are for your information. I wanted it included in the public records as documentation that we paid to not maintain the marshes. I'd like to have a comprehensive plan if we allow any clearing of those marshes or the Board elects to do any of the clearing. I know everybody wants the area near the 7th green cleared out. We met with the two of the homeowner's association's presidents and both golf courses to come up with a form so that if a homeowner, or in this case a golf course, wants to clear we'd have sign-off by the golf course, the homeowner's association and us. We would also run some of them by our consultant to make sure we aren't impacting something we shouldn't.

C. 2019 Public Facilities Report

Mr. Peugh stated this report is required every five years to be sent to the County, however we prepare one every year. Hammock Dunes is approximately 88% built out, Ocean Hammock and Hammock Beach are approximately 81% built out and Yacht Harbor is 48% built out.

Mr. Ponitz stated we completed two capacity analysis reports one for the water plant and one for the wastewater plant, which illustrates that with the water plant we should be good on capacity for full build out of the District. With us expanding the wastewater plant we went from 70% capacity last year and now we're back down to utilizing 52% capacity of the 0.71 million gallons per day capacity that we're now rated for. If we don't have any significant infiltration or any kind of other water breaches in our system that would cause more flow to come to the plant, we should be in good shape for full build out.

On MOTION by Mr. Crahan seconded by Mr. Vohs with all in favor the 2019 public facilities report was accepted.

D. Equipment Purchases

Mr. Peugh stated we have two equipment purchases. The first is for a Chevy Colorado to replace the 2009 Ford Ranger for \$29,189 and we budgeted \$30,500. The Ranger will now become the bridge truck so we will continue to use it. We also purchased a John Deere Gator to replace the 2007 GEM cart for \$14,438.15 and we budgeted \$16,000 for that. The GEM cart is giving us a lot of problems at the moment.

On MOTION by Mr. DeGovanni seconded by Mr. Vohs with all in favor purchase of the Chevy Colorado and John Deere Gator was approved.

FIFTH ORDER OF BUSINESS

Staff Reports

Attorney

There being none, the next item followed.

E. Engineer - Report

Mr. Ponitz gave an overview of the engineer's report, a copy of which was included in the agenda package.

Mr. Leckie asked that staff keep the Board informed of the issue with pond number four discussed in Mr. Ponitz's report.

Manager

F. Bridge Report for September

Mr. Peugh stated vehicle traffic was down 12.6% and revenue was down about 30% for the month. Overall, we were down 1.58% on collections and traffic overall was up 4.64% for the past year. I think we would have been right at projections if not for the hurricane. We have 19,000 accounts; 4,560 are using the website and 3,800 loyalty cards have been sold. This month we closed 441 accounts that were over a year and a half old and that was a total of \$6,516.63.

G. Additional Budget Items Report

Mr. Peugh stated the only additional item is the pipe break related to pond number four. We got some numbers so we're at about \$20,000 right now but until we open it up, we don't know for sure.

Miscellaneous Items

Mr. Peugh stated European Village signed their contract and paid us our money. They also paid the insurance after I sent them another letter stating we would terminate the contract.

We cleared the corner of Jungle Hut and Hammock Dunes Parkway and installed sod.

There was a meeting at Sea Colony during which it was discussed the county, a new special district or the Dunes CDD running a project to re-nourish the beaches for 12 miles from Beverly Beach all the way up to the county line. This entity would maintain a perpetual easement and a maintenance easement and interact with the Army Corps of Engineers. They would probably bring the sand in from the ocean because it's the most economical way of doing it. Within the 12 miles there are 25 homeowner's associations and 200 private property homeowners. This issue will continue to come up.

Mr. Vohs asked at the last meeting about the traffic lanes at the 4-way stop; initially they said it will decrease the level of service but they don't know how much, so they will look into that and let us know if it can just be two right lanes, one left and one straight lane so they will do that in the preliminary design and let us know.

We hope to get the front entrance here completed in November. We found some preassembled panels we think will make the construction go much quicker and will make the facility much more secure.

SIXTH ORDER OF BUSINESS Supervisors' Requests and Audience Comments

There being none, the next item followed.

SEVENTH ORDER OF BUSINESS Financial Reports

- H. Balance Sheet & Income Statement
- I. Community Projects Schedule
- J. Assessment Receipts Schedule
- K. Approval of Check Register

On MOTION by Mr. Vohs seconded by Mr. Crahan with all in favor the check register was approved.

EIGHTH ORDER OF BUSINESS

Next Meeting Scheduled for Friday, November 8, 2019 @ 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road, Palm Coast, Florida

Following the November 8, 2019 meeting at approximately 11:00 a.m. the Board will participate in a tour of the wastewater plant facilities. Notice of the tour will be included in the published notice of the regular Board of Supervisors meeting.

NINTH ORDER OF BUSINESS Adjournment

On MOTION by Mr. Crahan seconded by Mr. DeGovanni with all in favor the meeting was adjourned.

Secretary/Assistant Secretary	Chairman/Vice Chairman

Re: Professional Engineering Services for

Development of Bridge Repair Plans - Bridge 734071

Flagler County

Hammock Dunes Parkway over Intracoastal Waterway and A1A

Dear Mr. Peugh:

We are pleased to submit this proposal for engineering services for of the above referenced project. The scope of services for this task will broadly consist of the development of bridge repair and temporary traffic control plans with scope as shown on the attached fee sheet, including site visits, development of bid letting documents and letting assistance. The specific services are provided below. The services will be performed in conformance with the following:

1. PROJECT OBJECTIVES

The Consultant will review existing documentation and will develop scope in early phase of the project for concurrence by the DCDD. The Consultant intends to provide repair details for the following bridge issues:

- Cathodic Protection Channel Piers
- Concrete Repairs
- Joint Replacements
- Bearing Repair/Replacement
- Ladder Removal
- Fender Repairs
- Navigation Light Repairs
- RipRap Repairs
- Miscellaneous Repairs to address Bridge Inspection Report and other items as needed

Work will begin as directed with approval from the Dunes Community Development District via e-mail and will be completed within a mutually agreed upon schedule.

2. SPECIFIC SERVICES

The Consultant shall perform services that will consist of the following:

Structures Plans and Specifications

The Consultant will develop full contract documents for letting of bridge repair plans, cost estimate, project special provisions and specifications package as well as a contract for letting.

Temporary Traffic Control Plans

The Consultant will develop a clear and concise set of traffic control plans to execute the proposed bridge repair work.

3. CLIENT RESPONSIBILITIES

The DCDD shall provide KCA and its subconsultant access to the site as well as appropriate project files and correspondence to inform the proposed analysis and design functions.

4. LIMITATIONS

The Scope is limited to those services outlined within and the development of bridge repair plans and associated temporary traffic control plans. This scope of work does not include under-bridge access equipment such as a snooper truck. The bridge inspection report will be used for deficiencies in underside of deck and beams.

5. BEGINNING AND LENGTH OF SERVICES

The above outlined services shall begin upon the receipt of the Notice to Proceed from the DCDD. Final deliverables will be provided in accordance with the project production or required schedule.

6. COMPENSATION

Compensation for the previously described services shall be a lump sum amount of \$93,834.46 in accordance with the attached Summary Fee Sheet.

Sincerely,

Samuel L. Cullum, PE Project Manager

RESOLUTION 2020-01

WHEREAS, the Board of Supervisors, hereinafter referred to as the "Board", of the Dunes Community Development District, hereinafter referred to as "District", adopted a General Fund Budget and Water and Sewer Fund Budget for fiscal year 2019, and

WHEREAS, the Board desires to reallocate funds budgeted to re-appropriate Revenues and Expenses approved during the Fiscal Year.

NOW THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE DUNES COMMUNITY DEVELOPMENT DISTRICT TO THE FOLLOWING:

- 1. The General Fund Budget and Water and Sewer Fund Budget are hereby amended in accordance with Exhibit "A" attached.
- 2. This resolution shall become effective this 8th day of November, 2019 and be reflected in the monthly and fiscal Year End 9/30/19 Financial Statements and Audit Report of the District.

WWTP Expansion Project:

Bids were opened September 28, 2017. The four bids received ranged from a high of \$9.5M to a low of \$8M. Value Engineering reduced price by \$1,645,300, revised project value \$6,351,600. Contract and Change Order #1 Executed and Contract Documents provided to Contractor, Petticoat-Schmitt. Permit modification received from FDEP. A notice to proceed (NTP) was issued April 16, 2018 Time of substantial completion is 455 days from NTP (7/15/19). County permit has been issued. Contractor's current activities and status is described as follows. The most recent progress meeting was held on Tuesday, October 8. Most all significant project activities are completed including start-up of the new Sequencing Batch Reactor (SBR) system. Revere (SCADA) technicians continue to trouble shoot and complete outstanding operational configuration settings and integration of all plant equipment to the District's SCADA platform. Most operator equipment training has been completed except for equalization pumps and SCADA (Revere). Final inspection punch lists, operation manuals, spare parts and equipment warranties continue to be reviewed and processed by Contractor and Engineer of Record, Contractor Pay Application No. 19 was previously approved and indicates project is 100 % complete. Substantial completion date for the project is established as September 13, 2019 with final completion scheduled for October 13, 2019. Engineer of Record (CPH) submitted FDEP Notification of Completion of Construction Form to the Department on October 30, 2019. Staff awaiting receipt of final closeout documents for justifying eventual final reconciliation and payments to Contractor and Owner Direct Purchase (ODP) vendors.

Hammock Dunes Marshes

Staff awaiting SJRWMD findings for additional Hammock Dunes marsh considerations and methodology for quantifying marsh ecologic values/ disposition along with conceptual remedy options available to District for marsh preservation or mitigation. Staff received notice from SJRWMD on June 24, 2019 requesting coordination of plan of action for rectifying a 4.493 functional loss of onsite mitigation areas (marshes) which may include a combination of various mitigation strategies including mitigation bank credits, replanting marsh or littoral zones (or combination of same). The updated mitigation plan is to be submitted prior to July 26, 2019. The DCDD's environmental consultant, Atlantic Ecological Services, provided an update of 30-year cost comparisons for three (3) options available and presented to Board of Supervisors at the July meeting. Upon discussion, the Board authorized staff to pursue implementation of straight credit purchase (Option 1 – \$336,750) and to provide appropriate notice to SJRWMD describing same. The DCDD provided SJRWMD official notice of desired mitigation bank option and provided payment and agreement forms for same. Permit modification application was prepared by consultant and District received permit approval notice from SJRWMD.

Irrigation Storage/Usage

Design Project to pump storm water from the Hammock Dunes lake system is on hold. We maintain a portable diesel powered pump we can quickly begin pumping from the storm water system should the need arise.

A routing study by the City of Palm Coast's consulting engineer for a new reuse water main that would increase the amount of reuse water DCDD could obtain has been narrowed to three (3) routes. City is concentrating its efforts on getting the new wastewater treatment plant #2 online and will re-focus on the reuse water main upgrade after the plant is up and running. Board authorized ETM Consultant Scope of Services to perform an Irrigation Sourcing Master Plan to evaluate future build-out irrigation demands and to illustrate and quantify all available water sources, along with any capacity restraints, for meeting future needs. ETM provided draft technical review memorandum findings and discussed with staff during meeting held on April 18. ETM is awaiting DCDD staff review and response to additional demographic information concerning the service area and estimated in-fill growth rate prior to delivery of draft final report.

Weir Structure

We received preliminary plans for weir gate next 7/24/17. Cost of gate is \$10K (not installed cost). Also have directed engineer to include weir structure design for the structure near Blue Heron Ln. Follow-up report indicated an estimated construction cost of \$25,000 to \$30,000 each Met with the engineer September 26, 2017 to go over report. Meeting held Oct. 20 with SJRWMD. DCDD needs to develop drainage plan showing downstream drainage impacts. Meeting held with County's stormwater consulting engineer (ETM) 12/7/17. Drainage study \$50K+ using model developed for Malacompra Drainage area. Meeting held with Flagler Co. January 26, 2018 to discuss their plans for drainage in the Marineland Acres area, maintenance planned for the Malacompra Ditch and tributaries and drawdown of the lakes in Hammock Dunes, Ocean Hammock and Hammock Beach through an adjustable weir or pumping or harvesting for reuse purposes. Staff issued PO to ETM (\$28K) for performance of a Stormwater Harvesting Evaluation - Phase 1, Preliminary Assessment. The Phase 1 assessment results were shared with the Board in a technical memorandum prepared by the consultant during the November meeting. Minimal flood control benefit was realized by the stormwater harvesting although a potential benefit is available as a reclaimed source of water for irrigation. Staff received guidance from Board to await findings from ETM's Irrigation Sourcing Master Plan evaluation prior to moving forward with the consultant's additional scope of services proposal related to a Feasibility Study for Hotel Trace Weir Removal/ Modification.

Intersection Improvement Project

KCA provided a proposal regarding lane additions and/or signalization improvements for the intersection of Hammock Dunes Pkwy and Camino del Mar under their continuing services agreement to perform an intersection study that will identify the level of service and assess options available to the DCDD to improve the

intersection. The fee proposal for the services described in the proposal is \$57,610 and PO was issued subsequent to staff presentation and discussion during September board meeting. Staff reviewed 2nd draft traffic technical memorandum/report in early February that included results of the recent 24-hour traffic counts performed by KCA in early October along with future traffic projections and improvement considerations along with staff review comments. Staff received final report that includes considerations for evaluating future intersection needs based on appropriate annual traffic growth rate projections in May 2019. Staff issued purchase order to KCA (consultant) for professional engineering and surveying services proposal to perform concept roadway and drainage designs for proposed intersection improvements to determine proposed right of way limits for future project and land acquisition. The surveying activity related to this project is anticipated to begin in November.

Standby, Emergency Pumps

Recovery efforts following Hurricanes Mathew and Irma indicated a need for provision of additional emergency backup pumping equipment to maintain sewer service to our customers during extended power outage periods. Staff has identified existing wastewater pumping stations as the most critical and highest priority for provision of standby emergency pumping capability. The pumping systems selected and purchased separately by the District are diesel motor driven pumps manufactured by Godwin Pumps (supplied by Xylem) capable of pumping a large range of flow at varying head pressures and are provided with sound attenuating enclosures and critical grade silenced mufflers for noise purposes. This is a budgeted annual capital improvement item.

Priority 2 Facilities (2018-19): LS-6 and LS-7, both located on Camino Del Ray Pkwy. Project completed and closed out.

Priority 3 Facilities (2019-20): LS-10, 34 Island Estates and LS-16, Ocean Way N: Staff reviewed and authorized proposal from CPH Engineers for related survey and engineering design services in the amount of \$26.5K for placement and installation of standby pump piping and site improvements to include rehabilitation and upgrade for LS 10 mechanical and electrical components. Engineer performed site survey work for supporting design related services in mid-August. Staff prepared project notice to HD & OH Owner's Associations and OH Golf Course regarding consultant activities. Staff provided review comments on draft site plans for both stations and reviewed engineering calculations for LS-10 proposed pump upgrades. Awaiting revised plans from consultant. Staff received emergency bypass pump quotation from Godwin/ Xylem based on Florida Sherriff's Association (FSA) bid pricing for eventual preparation of purchase order for same.

FDEP – Water Treatment Plant RO Concentrate Disposal – Permit Renewal

Staff and Consultant (Mead & Hunt) prepared and submitted the Industrial Wastewater Discharge Permit Renewal Application in early July in accordance with current FDEP Permit No. FL0355259. This application is processed every five years and is due 6 months prior to the current expiration date of February 29, 2020. The District is required by FDEP to prepare and submit monthly discharge monitoring reports for the RO demineralized concentrate byproduct of the reverse osmosis process discharged to the ICWW along with semi-annual toxicity reports. Additional sampling and testing activities are required to be performed during the 5 year permit renewal application process to periodically monitor and review a broader range of potential pollutants of concern to insure no adverse changes in water quality is realized by our current source water conditions, treatment methods and treatment chemicals used.

The purpose of the report is to illustrate the DCDD is maintaining reasonable assurances that the permittee's disposal of demineralized concentrate from the water treatment RO process continues to meet current regulatory permit conditions and is not adversely affecting nearby surface water quality standards. Staff is awaiting confirmation of permit renewal from the FDEP. Staff received FDEP Request for Additional Information (RAI) 1 dated August 7, 2019 with a couple of items listed requiring either additional clarification and/ or data source references. Staff and consultant prepared and submitted draft response to FDEP on September 26, 2019. Staff and consultant discussed the draft RAI 1 response with FDEP regulatory personnel and the official response to RAI 1 response was submitted on October 21, 2019. Staff and consultant awaiting receipt of draft permit for review.

WTP Generator Fuel Tank (4000 Gallons) Replacement Project

Staff issued purchase order to Power Secure Service, Inc. (PSSI) to fabricate and replace the existing fuel tank and to perform closure and removal services for the existing tank. The fee for the services described in the proposal is \$60,453 and PO was issued subsequent to staff presentation and discussion during August Board of Supervisors meeting. Payment for tank deposit was issued and vendor performed site measurements for tank manufacture purposes in mid-August. Estimated tank delivery is sixteen (16) weeks. Vendor indicates tank fabrication is tentatively scheduled for completion on or around October 18. Vendor is also preparing new tank registration and old tank closure documents for eventual review and execution by District for submittal to FDEP. Staff prepared and submitted necessary tank registration and certification of financial responsibility forms to FDEP to accommodate new tank installation. PSSI completed old tank removal and new tank installation on October 22 and 23. FDEP inspection for new tank installation and old tank removal and closure occurred on October 29, 2019. Staff is awaiting final paperwork from PSSI to complete tank registration and closure activities in accordance with FDEP requirements.

Reclaimed Pond No. 4 – Berm & Liner Repairs

Operations staff began noticing what appeared to be the liner floating in Reclaimed Pond No. 4 on September 20, 2019. Staff immediately contacted previous berm and liner installation contractor and liner specialty companies to obtain feedback for assisting determination of potential causes of billowing. Initial feedback from the companies indicated water or air being entrapped underneath the liner system as potential causes although no source had yet been identified. The source of the billowing was eventually identified and confirmed by staff later the next week as flow from an equalization pipe located near the surface of the reject ponds. The equalization piping is connected to an older six inch reject line running along the top of pond bank which is either ruptured or has come apart where we assume is very near to where the pond embankment washout occurred. We met with Contractor (Besch & Smith) on Monday September 30 to discuss appropriate piping and pond berm repair activities. Staff received proposals from Besch & Smith (Contractor) and Comanco (Liner & Specialty Repair Co.) for related piping repairs, berm restoration and lining repairs. Purchase orders were issued to each of the companies with piping and berm repairs scheduled to begin on or around November 6 by Besch & Smith. Upon completion of berm restoration activities, subsequent liner repairs are scheduled to be performed by Comanco beginning on or around November 11.
