#### **RESOLUTION 2017-01**

## A RESOLUTION DESIGNATING OFFICERS OF THE DUNES COMMUNITY DEVELOPMENT DISTRICT

**WHEREAS**, the Board of Supervisors of the Dunes Community Development District at a regular business held on December 16, 2016 desires to elect the below recited persons to the offices specified.

# NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF SUPERVISORS OF THE DUNES COMMUNITY DEVELOPMENT DISTRICT:

Chairman
Vice-Chairman
Secretary
Treasurer
Assistant Treasurer
Assistant Secretary(s)

## MINUTES OF MEETING DUNES COMMUNITY DEVELOPMENT DISTRICT

The regular meeting of the Board of Supervisors of the Dunes Community Development District was held Wednesday, November 9, 2016 at 9:30 a.m. at the Dunes CDD Administrative Office, 101 Jungle Hut Road, Palm Coast, Florida.

Present and constituting a quorum were:

John G. Leckie, Jr. Chairman Dennis Vohs Treasurer

Charles Swinburn Assistant Secretary

Rich DeMatteis Supervisor

Also present were:

Richard M. Ryan District Manager
James Perry District Representative
Tim Sheahan Utilities Manager

The following is a summary of the minutes and actions taken at the November 9, 2016 meeting. A copy of the proceedings can be obtained by contacting the District Representative.

#### FIRST ORDER OF BUSINESS Roll Call

Mr. Perry called the meeting to order at 9:30 a.m.

#### SECOND ORDER OF BUSINESS Audience Comments

There being none, the next item followed.

## THIRD ORDER OF BUSINESS Approval of the Minutes of the September 9, 2016 Meeting

Mr. Swinburn made an amendment on page 10, which will be reflected in the final document.

On MOTION by Mr. Vohs seconded by Mr. Swinburn with all in favor the minutes of the September 9, 2016 meeting were approved as amended.

#### FOURTH ORDER OF BUSINESS Reports and Discussion Items

#### A. Status Report on Storm Damage

Mr. Ryan stated we came through the storm pretty well, our total unexpected cost was probably \$25,000 to \$35,000. We don't have all the numbers in yet but we had Shaw Tree Service come in and do tree removal and Austin did some cleanup of brush along Hammock Dunes Pkwy. Austin also had to pick up all the dead fish in Ocean Hammock. The roof on the filters for the reclaimed water blew off and it wasn't a big deal but that was the only damage we had to buildings.

Mr. DeMatteis asked what happens to the salt in the ponds?

Mr. Ryan stated the time frame is unknown. Rain needs to dilute the salt which will take quite a while probably months.

Mr. DeMatteis asked has there been any discussion with the county about cleaning out the debris that came down in the Malacrompara?

Mr. Ryan stated Tim and I went up there and it wasn't that bad.

Mr. Sheahan stated they were pumping back into the ocean but the west end was flowing towards the Intracoastal.

Mr. Ryan stated there really wasn't much debris at all in the canal, there was a lot of stuff in the marshlands but I don't think they are going to do a thing about that.

### **B.** Community Projects Report

Mr. Ryan stated we still have some corrections to do when you compare this report to the one that is in the back of the book. The two projects that have a problem are the sidewalk project that shows \$171,000 and the correct number is \$114,000 and the median improvements has \$110,000 and was only \$43,000. Once we get those two items resolved we will be balanced out. Going back to our community projects report we made the final contribution of \$200,000 and have now put in \$1,800,000 so we are done with funding the community projects. When we balance correctly all the expenditures to date we have spent about \$166,000 on Hammock Dunes Parkway and the allocation was for \$260,000 so we still have approximately \$500,000 to do other projects setting aside the \$900,000 we have to give to the county at some point. By next month we will have the sheets balanced within a few dollars.

Mr. Swinburn stated you suggested at the last meeting possibly soliciting suggestions from the two homeowners' associations for additional projects. Is that something worth doing?

Mr. Ryan stated it is up to the board if you want to entertain additional projects we have two representatives here that can bring the message back and have them to submit some ideas. It is supposed to be things that benefit the community if the homeowners' associations are aware that there are funds available and they present a project that makes sense I think that is something we would entertain.

Mr. Swinburn stated I was on the board of the homeowners' association and the last time you solicited suggestions I was quite surprised at the parochialism of the way the board looked at it. It was like let's find a project that benefits us and the heck with those guys up in Ocean Hammock and probably the Ocean Hammock board was doing the same thing. I'm wondering if maybe this time we can get the two boards to talk to each other.

Mr. Vohs stated I think there are things like the dune walkovers and dunes openings that need to be repaired. I don't think the county no matter what they come up with will do anything with those matters.

Mr. Ryan stated when you start talking about dune restoration and when you start doing that type of thing just with rip rap it will cost \$300,000 to \$400,000, it is a very pricey situation. There may be some aspects we can get involved in but we have to scale down the concept.

Mr. Vohs stated I think it might be things that the area would want to improve upon what DEP will say that can be done. It would be something that would cross both areas.

Mr. Ryan stated one of the issues we had with the requests from the HOAs was they were not legally doable according to our mandate and our agreement with the county. We have to make sure that we can legally do whatever comes across.

Mr. DeMatteis stated I think it would help if you tell the two board presidents exactly what those rules are.

Mr. Vohs stated if there were something you could do with the dunes there would be some justification since it is going to bring people across the bridge. The other issue and I have had the question with Mr. Coffey because he originally brought it up and if we have dunes to protect why do we have openings at Jungle Hut. Obviously, that was done when there was driving on the beach but you can put a walk over there that would take a four-wheel drive vehicle.

Mr. Sheahan stated I spoke with Daniel Baker yesterday and he said the county is going to be closing those off.

Mr. DeMatteis stated I know Mr. Coffey said they were going to do that but they need a dune to tie into.

### C. Status of Capacity Fees Matter

Mr. Ryan stated you have a memo from Michael basically saying they are still working on a February date for the hearing. There are some side issues that are up in the air that have nothing directly to do with us but more to do with Ocean Hammock Homeowners' Association. I guess the other attorneys are looking to resolve those issues and it doesn't involve us directly but they are trying to make it part of the situation. Right now we are still going forward with the thought that we will have hearings in February. This is the third time we have had a new judge and they don't know who the new judge is going to be. Until that is resolved we can't get a firm hearing date.

## D. Status Report on HDP and Jungle Hut Road Intersection Construction Schedule

Mr. Sheahan stated due to the hurricane the contractor revised his schedule and they are going to remobilize the week after Thanksgiving. They should be returning the message boards Monday. They completed the electrical work for the beacons and have done some of the line of sight clearing.

#### E. Status Report on Renewal of European Village License Agreement

Mr. Ryan stated we sent the license agreements to them put the amount of \$6,000 on both the residential and commercial condo association and they signed them and sent us the checks.

#### F. Status Report and Discussion on New Toll Collection System

Mr. Ryan stated I gave you two toll scenarios to review, the vendor putting in the system is saying why do you want to maintain the bonus system with false readings and so forth and we said in the past it was kind of necessary because there were discounted systems and it had been very hard to change that. The last rate adjustment we had eliminated the discount system. It now does not matter if you put in \$20 or \$1,000. The vendors point is you just make it in real dollars

and you drive up and if you don't have a sticker you pay \$2.00, if you come across with a sticker 50¢ shows up and from a perception standpoint and balance sheet standpoint it makes more sense because you don't have this liability for the people who have put money in and they haven't crossed the toll line yet to be charged. There is always this liability and I will point it out on the report. At the end of the month we know how much liability is out there. It is about \$900,000 that we owe people that go across. If we went to a straight monetary system where it is 50¢ or \$2.00 (depending on the size of the truck it might be \$3.00). At present if someone comes up and gives us \$20 the account shows \$80. The new approach would show an account balance of \$20. The bridge people's argument is that people are going to say I had \$80 in there and now I have only \$20. Their position is we can continue with the artificial approach because people are finally getting used to it and starting to understand it or we can go to the straight cash system, which simplifies a number of things but there are going to be some problems explaining what happened to the bonus funds.

I would like a sense of what you think the community would prefer, would they care if somebody told them you went from \$80 down to \$20. I would just as soon clear the whole thing off and make it a straight cash system because it is easier but what are people going to think about it.

Mr. DeMatteis stated I think they know of the issue but I don't think they understand it. If you could go online and see your balance if you could do that and in one month we could clear all that up and if that is explained on the website or in a mailing I think nobody would be asking what their balances are because they could see their own balance.

Mr. Ryan stated if the board doesn't have strong feelings one way or another my sense is I would like to go with the cash system.

Mr. Vohs stated I agree and we will have to create a nice little document that we can give to people that explains that they didn't lose anything especially when they call and complain. It will at least get rid of the complications in the long run.

Mr. Perry stated you could just have a short one-page example that the toll takers can provide to them. It is going to be painful for a month but after that it will be fine.

Mr. Ryan stated the sense that I get is we will go forward with straight cash and keep it simple.

Mr. Swinburn asked why do we need the new gates?

- Mr. Ryan stated that is to stop violations and that is someone just driving through.
- Mr. Swinburn asked is there a lot of that?
- Mr. Ryan responded there is quite a bit probably 500 to 600 a month.
- Mr. Leckie asked when will this go into effect?

Mr. Ryan stated we haven't decided a date but whenever it is it will the first of a month. The vendor will come in and readjust all the account balances and have both new and old systems running at the same time. The old system will be in place while the new system is coming up to speed so when the transfer is made we will know that everything works and everything is transferred appropriately to the new system. It may be January 1<sup>st</sup> or February 1<sup>st</sup>. Most everything is in, it is just finalizing which way we go and I will tell them we are going to the cash system and they can make the changes accordingly.

## G. Ratification of Addendum to Engagement Letter with Grau & Associates Required by a Revision to Public Records Law

Mr. Ryan stated this is a requirement of the new laws that were passed that if you have a contract with somebody you have to tell them that they are responsible for meeting the public records law. We will add this information to each contract that we write from now on.

On MOTION by Mr. Vohs seconded by Mr. Swinburn with all in favor the addendum to the engagement letter with Grau & Associates was ratified.

#### H. 2016 Public Facilities Report

- Mr. Ryan stated the public facilities report is included in the agenda package.
- Mr. Sheahan stated basically it is the same report every year it is updated with the wastewater plant expansion and water plant expansion.
  - Mr. Leckie asked you submit this to which agency?
  - Mr. Ryan responded we submit it to the county.

#### FIFTH ORDER OF BUSINESS

#### **Staff Reports**

#### A. Attorney

There being none, the next item followed.

#### B. Engineer

Mr. Sheahan stated on the wastewater plant expansion we submitted the applications to FDEP they sent back a request for additional information and we are working with the engineer to respond to that request. We conducted a pilot study of the biosolids dewatering equipment and we visited several plants that are using the equipment that we are looking at using on this project. Next week we are going to look at more equipment and narrow down the selection for what we are going to do with the biosolids dewatering. I still anticipate construction to begin in the spring of next year.

As far as the landscaping we continue to monitor a couple of the Sabal Palms that were replaced that weren't looking real good.

We received a letter from the water management district last July about the marsh behind 507 Granada, subsequent to that we met with Mr. Hertzog, we had it surveyed we had a clean up of the marsh and his latest email says that he wants the marsh dredged and become a lake. That would require a St. Johns permit.

Mr. Leckie asked is it a wetland now or a marsh?

Mr. Sheahan stated it is a marsh.

Mr. Ryan stated we think the reason a lot of vegetation died off was a result of the saltwater infiltration. There were herbicides put down to kill some of it back several months ago. The fellow from St. Johns who responded to Mr. Hertzog letter said to wait 60 days and the stuff will grow back. Let's leave it alone and see what grows back but as far as making it a lake my sense is there is no way we should pay \$300,000 to \$400,000 to make somebody happy.

#### C. Manager – Bridge Reports and Traffic Comparison for September & October

Mr. Ryan gave an overview of the bridge reports for September and October along with the traffic comparison.

## SIXTH ORDER OF BUSINESS Supervisor's Requests and Audience Comments

There being none, the next item followed.

Attachments: Charlie Faulkner.vcf; 2016-12-09 Golden Lion CDD Easement.pdf

Importance: High

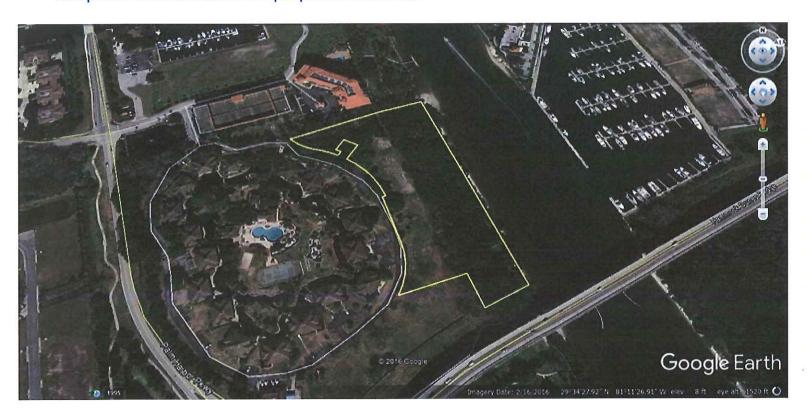

### Welcome home Dick!

I hope you came back rested & safe.

I didn't want to bother you with business while you were gone, but we desperately need your help & advice. Time is of the essence and I know you are very busy so I will be brief.

The Golden Lion restaurant is family owned and they are looking to build another restaurant in Palm Coast.

The photo below shows the proposed location.

This parcel was once part of the adjacent timeshare project, but was taken by the bank during the recession.

The parcel has no legal access.

The adjacent timeshare folks are excited over the plans and have agreed to grant us an access easement as shown below. We are respectfully requesting the same of the Dunes CDD.

We have attached a draft access Easement for you and your Board's consideration that is essentially the same Easement the City acquired from the CDD in 2002, for access to lands under the bridge.

If at all possible, please consider this request at your Board meeting later this month, as the seller requires a closing this year.

We have met with the City & they are very supportive of the project.

I will call you later this afternoon and discuss the project in more detail.

Thank you in advance for your help!

Kind Regards,

Charlie
