**EFFECTIVE IMMEDIATELY UNTIL FURTHER NOTICE
EMERGENCY IRRIGATION WATERING SCHEDULE
COMPLIANCE NOTICE**

The lack of recent rainfall and near-drought conditions has created an extremely high demand for reclaimed irrigation water. Due to this high demand, the Dunes Community Development District (DCDD) irrigation storage lagoon water levels are at Emergency Levels. Therefore, the DCDD is requesting that all Customers conserve irrigation water and implement the District's emergency watering schedule. The DCDD also requests that you check your irrigation systems and observe the emergency (odd/even address) irrigation watering schedule contained in the DCDD irrigation rules (below). Emergency Watering Rules require the Customer to reduce scheduled irrigation from three (3) to two (2) days per week. The DCDD appreciates your cooperation and partnership during this time. Should you have any questions or require further information, please call (386) 445-9045.

Utility Manager

DUNES CDD EMERGENCY IRRIGATION RULE/ WATERING SCHEDULE

Summarized below is the watering schedule for residential and multi-family facilities within the Dunes Community Development District service area.

<u>ADDRESS</u>	<u>WATERING DAYS</u>	<u>WATERING PERIOD</u>
Odd Number	Wednesday, Saturday	4:00 PM to 10:00 AM (Next Day)
Even Number	Thursday, Sunday	4:00 PM to 10:00 AM (Next Day)
	Monday, Tuesday, Friday	Irrigation Prohibited

The DCDD's irrigation system operating pressure is reduced during non-watering days for promoting water conservation and to assist customers and irrigation contractors with private system testing and repairs.

Please make a note of the operating times for your address and adjust your irrigation control system accordingly.
