

# PHASE I

## HAMMOCK DUNES PARKWAY & CAMINO DEL MAR Intersection Improvements ⚠️ Spring 2025 – Spring 2026

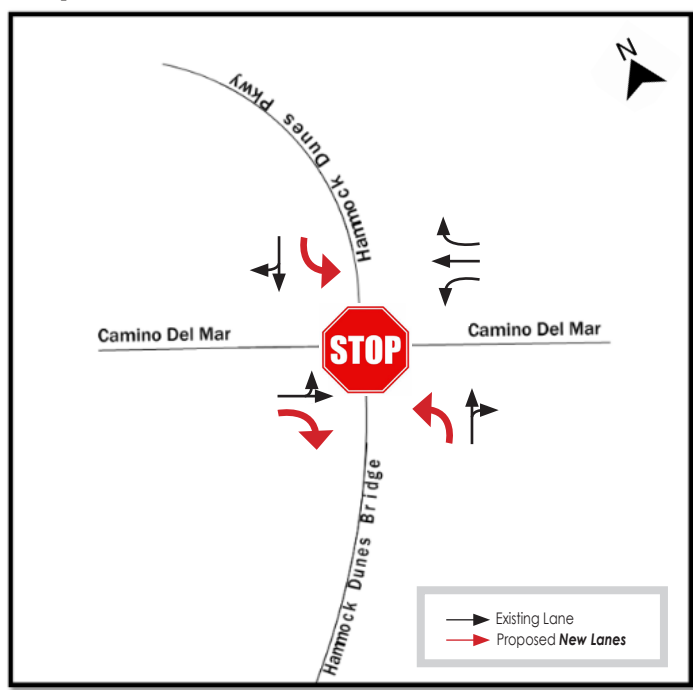

### Project Overview

The existing four-way stop at Hammock Dunes Parkway and Camino Del Mar has been experiencing congestion for multiple years during peak travel periods. The DCDD has programmed this project for intersection improvements as part of ongoing efforts to improve traffic flow. Additional lanes for turning will be added along both legs of Hammock Dunes Parkway and along the eastbound leg of Camino Del Mar. Additional bicycle facilities will be added between the intersection and the bridge on southbound Hammock Dunes Parkway.

**Winning Bid \$2,015,834.03**

### Proposed Improvements (new lanes shown with red arrows)

### Anticipated Schedule

October  
2024

Bid  
Project

Spring  
2025

Construction  
Begins

Spring  
2026

Construction  
Complete

### TRAFFIC INFORMATION

During construction, there will be temporary lane and shoulder closures to construct intersection improvements. Temporary lane closures will occur only during night-time hours, and work will be completed in phases to minimize construction impacts.

*\*Phase II will add a signal if needed*
